

Asklepieion 1992

The University of Tennessee, Memphis

Asklepieion is a word derived from the name of Aesculapius, the Greek god of medicine and healing. Aesculapius was honored and worshipped throughout the Greek world by persons seeking the healing powers of the physician. Temples were erected in honor of Aesculapius near healing springs or high mountains. Those who worshipped him were known as Aesculapae. Therefore, the temples in his honor were known as Aesculapions (Asklepieions). In the ancient city of Memphis, on the Nile River, there was a temple where people went for worship and for care. In our own city of Memphis, on the Mississippi River, people come to our Asklepieion for healing and care.

There really is

LIFE

Top Left: Hot pizza, cold drinks and fun friends — the perfect combination. **Lower Left:** It's admirable to conserve water, but ladies, don't you think you're carrying it a little far? Foursome in the shower include: Beth Anderson (P-3), Mary Lisa Phillips (P-1), Shannan Eades (P-1), and Dana Dedmon (P-1). **Right:** Nursing student Melanie Maynor shakes, rattles and rolls to win a prize at Luau '91.

Top Left: P-1 Amber Graves (left) and P-2 Amy Market (right) make a big splash at a Phi Delta Chi rush party. **Lower Left:** Classmates Jackie Woods (left) and Angela Marascalco (right) create lasting memories at the College of Dentistry Christmas party. **Top Right:** Is it piggyback relays, or are Lori Lee (on top) and Jonathan Burdette (on bottom) just horsing around at Mayfest? **Lower Right:** Preparing for the Labor Day Canoe trip are Jorge Salazar (M-3), Lara Gonyea (Social Work) and Bridgett Beaty (friend).

AFTER CLASS

There really is life after class. Sitting still for several hours each day listening to lectures, doing lab work, caring for patients in the clinics, or reviewing texts and notes for hours on end will make you want to do something which requires no serious thinking. It makes you want to have fun. And fun we have!

There are lots of opportunities at UT Memphis for picnics, parties, canoe trips, showers together (?), or just getting together with

a few close friends to go to a movie or watch a video.

There is much more to an education on this campus than just learning about our individual disciplines. There's a lot to learn about people besides what goes on inside their bodies. There's a lot to learn about ourselves by being with others, spending time with family or friends, and making time to have a life outside of classes or clinics.

PIECING
it all

TOGETHER

The student experience at UT Memphis lends itself well to the theme of the 1992 *Asklepion*-"Piecing it all Together." Day by day, week by week, year by year, we learn more about the intricacies of the human mind, body and soul. Every bit of knowledge gained is like a piece of a massive puzzle. Carefully, we place each piece, methodically completing the puzzle of our chosen discipline.

Outside of our academic experience, we're piecing together another huge puzzle we call "life." There are decisions to make, goals to reach, relationships to nurture, health to maintain, and responsibilities to fulfill. We encounter many obstacles in our quest to piece it all together. At times it seems like there are pieces missing from the puzzle and we don't feel complete. Other times, there seem to be too many pieces to fit, yet somehow it all seems to work together.

There is a point in our experience when these puzzles begin to mesh to form one giant puzzle. As our professional puzzle becomes more real and defined, our life puzzle becomes a part of it all, intertwined and interrelated. As health care professionals, we have a lifetime commitment and all that we do will now be a part of that puzzle.

As we approach graduation after years of piecing it all together, we realize that the puzzle will go on forever, each piece interlocking with the next, as we grow and experience new ideas, new advancements and new people along our lifelong journey as health care professionals.

FORMING FRIENDSHIPS

The RIGHT STUFF

Talent abounds at UT Memphis! That's because we have the very best students in the State of Tennessee. In addition to being bright and dedicated scholars, out of the classroom or clinics, their personal interests and talents are expressed in a variety of ways whenever time allows. From the intramural playing field to the SAC stage, many students share their talents with the campus community.

There are musicians, singers, dancers, athletes, artists, photographers, poets, writers, yearbook editors, gourmet cooks, comedians and countless other talented people who all have the "right stuff" to help create a dynamic and exciting campus environment. They are continuing to piece it all together in their own way.

Left: Larry Brewer (D-3) keeps the crowd chuckling as emcee at LUAU '91. Bottom Left: L to R: Shahin Shareef, Sheila Patel, Alpa Patel, and Hina Sharma, all dressed up in native costume, wait to perform their Indian folk dance called Raas Dandiya (stick dance) at the International Day Talent Show. Below: Jeff Kirschman responds to Dr. Chris Chain's answer to a Faculty Feud question while Dr. Pat Wall concentrates on the steal.

Above: Medical student, Ed Salcedo performs a peppy rendition of "Tarantella" at Talent Show '91.

Top: Chris Gafford (on drums) and John Rowe of the Free Radicals outplayed three other groups in the "Battle of the Bands" at Wednesday Sundae, to benefit the Church Health Center. Other band members include Jonathan Burdette and Ed Salcedo. Above: Showing he has the right stuff, Mike Jenkins (P-2) goes out for a pass as teammates provide assistance.

A Class Act

Above: Lori Allman takes a breather from examining her Cyto slides. **Upper Right:** M-2 Christopher Cox still smiling with an all-nighter ahead, before the big micro test. **Right:** Luann Massey and Nancy Phillips show off their poster presentation at a College of Nursing conference in the SAC.

The Ultimate Goal — walking down the aisle to receive your diploma! It seemed so difficult when we first entered UT Memphis. It seemed like it would take forever to reach graduation day.

So much has happened. Think of the hundreds of hours we spent in lectures, classrooms, labs and clinics. The procedures we had to do over and over and over again until we had it down perfect. No one said it would be easy and it wasn't. But we have grown in so many ways — academically, socially, emotionally, spiritually, and mentally. We are all better off because of our experiences here.

People are going to trust us with their care. We have to do it right. We have to do it to the best of our abilities. This is what we have been taught to do. This is what we will do.

SGAEC

The Student Government Association Executive Council (SGAEC) is an organization designed to represent all segments of our diverse student body here at UT Memphis. SGAEC members serve on and appoint other students to serve on university committees at all levels to insure that the student voice is heard and considered in formulating new policies and making decisions. With a spirit of cooperation, the 1991-92 SGAEC bonded together to promote interests, issues, and activities important to us all. We continued all the traditional activities of past SGAEC's, including supporting the Church Health Center as our major philanthropy, but our council also forged into new areas committed to increase communication and take a more assertive role in representing students.

The SGAEC began publishing a monthly report in the *Student Lifeline* and held the first annual Student Leadership Forum. The SGAEC met with UT President Dr. Joe Johnson and discussed student issues including tuition rates, funding of higher education, and college concerns. The SGAEC strengthened relations with the faculty and worked with Faculty Senate leaders and the Chancellor to develop and establish Teaching Excellence Awards. In an effort to protect our environment and increase "earth consciousness," the SGAEC purchased aluminum can recycling containers and revived discussions of a university recycling program. Personal safety awareness was promoted by the SGAEC through the establishment of a university Student Safety Committee and the addition of the Awareness Line, a daily crime report which is posted in various buildings across the campus. The Council also participated in the development of plans to remodel and refurbish student study areas around campus, particularly the independent study areas in the GEB. New social events this year included the very popular and entertaining Fun Flicks Videos and special UT Nights with the Chicks and the Rockers. Many other activities and projects designed to improve the quality of life for everyone here at UT Memphis, were sponsored by the SGAEC this year.

On behalf of the Council, it has been a pleasure representing and serving you this year. I sincerely thank our administration, staff, faculty, and students, who have worked with and supported us throughout an exciting, challenging and successful year.

THE IMHOTEP SOCIETY

In 1980, the IMHOTEP Society became an official and recognized organization on campus, for the purpose of honoring students, faculty, staff, and alumni who have significantly contributed to student life and student process at UT Memphis. It was recognized that many student leaders, in performing their functions and assignments, may have sacrificed high academic accomplishments and thus did not receive recognition through those organizations which traditionally honor students for high academic achievement.

While the principle objective of the Society is to reward and recognize student leadership and service on campus, a secondary goal is to inspire students to continue leadership and service roles as alumni of the University.

PIECING *it all* TOGETHER

The Allied Health professional is often the unsung hero in the health care field. We labor behind the scenes and our efforts often go unnoticed. But, although our visibility may not be that of the physicians and nurses, we nevertheless provide just as indispensable a service in patient care. The training we receive in our years here at UT is intensive and grueling. However, we endure it, as we are truly dedicated to the welfare of the patient.

The Allied Health professionals — cytotechnologists, dental hygienists, medical record administrators, medical technologists, occupational therapists, and physical therapists — are all truly vital pieces in the health care puzzle.

PIECING *it all* TOGETHER

First is the student who strives to reach his lifetime goal of becoming a dentist. Second are the professors, who through their leadership, pass the torch of knowledge to the willing student. Third is the patient who trustfully allows the young and eager student doctor to brighten his smile.

After the people, there comes the place we call our daytime home for four long years. Whether it be in class or in clinic, UT Memphis is where we choose to be.

Finally we have the times. Good or bad, happy or sad, they are the times which we shall never forget.

People ... Places ... Times ...
Alone they are nothing; but as we "Piece it all Together," we have the College of Dentistry.

The American Student Dental Association of the University of Tennessee, Memphis, serves as the student governing body of the College of Dentistry. Membership is optional for all students; however, nearly ninety percent of the student body are members. The Executive Council consists of elected representatives from each class, dental fraternity presidents, and the Honor Council President. The Executive Council also consists of five positions which are filled by an election of the entire student body. Every Thursday, the Council meets over lunch to discuss matters which need to be "ironed out" in the dental college, whether it is in relation to the administration, faculty, parking services or even student life.

The ASDA is also involved in fundraising for various projects around the Memphis area. The annual Peabody Bash raised funds for the Church Health Center. The party was enjoyed by all who attended and benefitted a great cause as well.

The American Association of Women Dentists, founded in 1921, is a national organization geared toward the enrichment of women in dentistry. The local chapter established in 1985, is dedicated to serving the Memphis community and the University of Tennessee.

This year the AAWD and its members had their first annual Valentine's Day Party and raised money to donate to the Church Health Center.

CHEMICAL DEPENDENCY HELP PROGRAM

The Chemical Dependency Help Program was founded in 1987 and became active in 1989. It consists of two representatives from each class. The purpose is to help students to be aware of alcohol and drug addictions as a Dental student before they go to a private practice setting, and to educate students about the ramifications of having an addiction in one's career. The program at UT has been quite successful with this approach.

L to R, Seated: Dr. Charles Shannon (Advisor), Jeff Moore (President — D3), Mike Cooley (D1). Second Row: Kent White (D2), Susan Young (D4), Alex Touchstone (D2), Leah Patrick (D4), Missy Calderon (D3), Jenny Benson (D1).

HONOR COUNCIL

Since September of 1984, the Honor Council in the College of Dentistry has been composed of four students from each class, elected in the spring of their first year of dental school. Prior to this time, six students were elected. It is the collective responsibility of the members of the Honor Council to protect the educational process by addressing possible violations of the Honor Code.

L to R, Seated: Alisa Holbert (Secretary — D3), Michael W-Palmer (President — D4), Richard Gaw (Vice President — D3). First Row: Kim Culbertson (D2), Shannon Backofen (D4), Linda Moore (D4), Caroline Churchwell (D4), Teri Foy (D2), Maricella Rodriguez (D3), Liz Waggener (D1). Second Row: Noel Reed (D1), Wade Clayton (D1), Rob Wilson (D1), Jamie Winchester (D2), Brian Himelwright (D3), Bobby Martin (D2).

HONORARY ODONTOLOGICAL SOCIETY

The Richard Doggett Dean and Marguerite Taylor Dean Honorary Odontological Society was formed in 1948. The purpose of this society is "To propagate and perpetuate professional ideals, ethics and techniques in the field of dentistry." Active members consist of UT dental students who have met the high qualifications of this society. They must be in the upper one-half of their class scholastically, have a deep interest in the profession, have gentlemanly conduct and character above reproach. They must also show promise of making important contributions to the profession of dentistry.

L to R, Seated: Dr. Simpson Evans (Advisor), Brent Collins (President — D4), Marcus Hopkins (D3). Standing: Brit Bowers (D4), Michael Wharton-Palmer (D4), Mike Williams (D4), Ricky Cornish (D4), David Spivey (D4), Terry Webb (D4), Monte Butler (D4). PSI OMEGA was founded in Georgia in 1842 by William Hamilton and one of his colleagues. Since then, this two-member fraternity has grown to cover the nation to join students and alumni as brothers. At the University of Tennessee, it has been an important part of campus life for decades by having numerous campus functions. Psi-O was founded to establish a means for students to get to know one another, to form friendships and to help each other. The basis of Psi-O is that there are other outlets besides academics that are important in obtaining a well-rounded education. Psi-O is therefore an active participant in intramural sports, charity fundraisers, and campus parties. Psi Gamma Chapter here at UT is proud to be the largest chapter in the nation!

PSI O'S

XI PSI PHI

Dental Fraternity is cordially known as the ZIPS. Several members reside in the fraternity house located at 249 Garland Street. There is a fully-equipped laboratory which is always available for use. Intramural sports, Friday Happy Hours, and theme parties are some of the social activities ZIPS are involved in. Xi Psi Phi enjoys serving UT Memphis both socially and academically.

DELTA SIGMA DELTA was established on November 15, 1882 by seven dental students in Ann Arbor, MI with a desire to render the best dental services in the highest professional manner. This founded the first dental fraternity in the world. It brought together the most talented dental students as well as outstanding teachers and practitioners. Delta Sig's have strong faculty support because of the high standards required for the establishment of a chapter on campus. Nowhere in the history of Delta Sig's has it been written that it must initiate the largest number of candidates, however nationally and locally, it has been the fastest growing chapter in the country.

GRADUATE HEALTH SCIENCES

PIECING *it all* TOGETHER

The first two or so years of the graduate student experience are similar to those of most UT Memphis students, with classes providing background to the life sciences. As graduate students progress from the GEB to laboratories scattered about the campus, their puzzles begin to take on unique shapes, even within the same lab.

The individual research project of each student is designed to educate the student while he or she solves a section of the colossal life sciences puzzle. Often scant data serves as an incomplete set of pieces to his or her assigned puzzle, and a variety of theories — whether right or wrong — serve as the picture of what the puzzle might look like. The greater part of graduate school is spent in search of the missing pieces of the research puzzle — experiments, experiments, experiments, and more experiments. The experiments are never-ending, but as data is produced, the theories become closer to the truth, and the puzzle image becomes more clear.

MEDICINE

Robert Blake
— Editor —

PIECING *it all* TOGETHER

According to Dorland's Medical Dictionary, Medicine is the "art and science of diagnosis and treatment of disease, and maintenance of health." However, words cannot describe the experience of medical school. Often times, it seems as if the "pieces of the puzzle" won't fit, but in the end they all form the complete picture — success at last!

"We have finished the first step in our process of becoming a physician. Each of us has decided on what will ultimately become our specialty. No matter what our chosen specialty, we all share this common road — MEDICAL SCHOOL. We will always remember these four years. Hopefully with fond memories. I pray that each of us will find fulfillment as physicians and remember our first steps together as the CLASS OF '92."

"Winning to me means getting what you want. Not what your mother and father wanted for you, not what you think you can realistically get in this world, but what you want — your dream, your wish, your fantasy. You're a winner when you have a life you love, so that you wake up every morning excited about the day ahead and delighted to be doing what you're doing, even if you're sometimes a little nervous and scared."

The Omega Chapter of Alpha Kappa Kappa prides itself on being a relatively small yet tight-knit group. Our fraternity house is located at 747 Court Avenue and provides housing for 15 members. During this past year the chapter and its advisor, Dr. Hershel P. Wall, have made a concerted effort to keep our alumni informed about our activities and to get them more involved. The fraternity continues to host monthly dinner/speaker meetings with various topics of interest in the field of medicine confirming AKK's dedication to academics outside the classroom and clinics.

AKK has its share of parties too! Beginning with our annual cookout and party to welcome the incoming M-1's, this has been a festive year for AKK. Other social activities included a joint party venture with Kappa Psi, the annual Super Bowl Sunday Blowout.

NURSING

Karen Clenney
— Editor —

PIECING *it all* TOGETHER

Nursing is a profession that helps to piece the health care system puzzle together. Through direct patient care and extensive education, nurses play a vital role in the team of health care professionals who solve health care puzzles daily.

Today's nurse is not limited to strictly hospital care any longer. The field is wide open for nurses to become almost anything they want to become — nurse practitioners, clinical specialists, nurse anesthetists and much more. Through these expanded roles and communication with all other health professionals, nurses play an important part of "piecing it all together."

Student Government

As Nursing as a science and career has grown, so has the need for leaders in nursing. Our participation as officers in Student Government provides leadership training, increased awareness in nursing issues and opportunities to begin creating positive changes in the nursing profession. Nursing has come a long way and we as future nurses will take it even further.

Honor Council

The Honor Council is comprised of two students from each class. The purpose of the council is to enforce the Honor Code which is an agreement all students sign before entering Nursing school that they will not "use, give or receive any unauthorized aid during exams; jeopardize the health or welfare of patients by recording or reporting fraudulent data; or willfully neglect clinical responsibilities." If a violation occurs, the complaint(s) are brought before the council and action is taken as deemed necessary.

AINS

The Assistance for the Impaired Nursing Student Program was founded in 1985. The purpose is to identify nursing students who are impaired as a result of alcohol, drug abuse or other psychiatric problems. When a problem is identified, counseling, guidance and/or referrals are offered. Comprised of nursing students and faculty advisors, the program is aimed to increase awareness of chemical dependency problems.

L to R, Standing: Shannon Cheshire, and Lisa Forsythe. L to R, Seated: Shelia Powell and Jon Hart. L to R, Kneeling: Jill Collier, Debby Page, and Eunice Bakewell.

SNA

The Student Nurses Association is a student nurse's opportunity to become a professional member of their professional organization. The nationwide group offers the student the beginning of networking with other professionals, a powerful voice in legislation, and a support system for their profession. SNA gives one a chance to make a statement, a difference, memories and goals, which is the essence of one's profession.

PIECING *it all* TOGETHER

Like a puzzle, the College of Pharmacy is created through combining a variety of different elements. Each individual represents an interconnecting piece of the puzzle. Every student is an important component of his/her class. Each class forms an element of the puzzle. The P-1 class enhances the college with their enthusiasm, optimism and innocence. The P-2 class members assume the leadership positions necessary for the continued success of the student organizations. The P-3 class members expand their knowledge through modules and externships. The P-4 class eagerly awaits graduation and the opportunity to influence the future direction of pharmacy.

The two elements of the puzzle, which link the classes together, are the student organizations and the faculty. The center of the puzzle is represented by the student organizations. The organizations connect and direct the activities of the student body. The faculty and administration are vital for the guidance and education of the students. They are represented by the edge of the puzzle and shape the direction of pharmacy education.

Together each of these individual elements are required to complete the puzzle, which is the COLLEGE OF PHARMACY.

FINAL FAREWELL

Reflecting back over the past four years of Pharmacy School, I am filled with mixed emotions. We, the PHARMD2B Class of '92, have definitely experienced many highs and lows since September of 1988. As we began school, we were challenged by everyone to get involved and get the most out of our education.

We accepted the challenge and quickly got to know one another (with the help of our word pictures), studied hard, played hard, and "shifted our gears" through the years.

The years have not been easy. In pursuit of our PharmD, we suffered through hours of lectures, stacks of notes, modules, clerkships, projects, and tons of tests (Thank goodness for Hi-Liters, #2 pencils, caffeine, and pizza). Along the way, we lost classmates, family, and friends to illness, academics, and personal situations, but through it all, we grew closer together. It wasn't all bad though, we also managed to have lots of fun. There were always lots of great parties and get togethers, fraternity and ASIP functions, trips and many humorous moments. I'll never forget Kristen and her "speedy pencil," Charles "???" Colloms, Barbara "Chatterbox" Chronister, Ron "Headphones" Keylon, and the many other funny people and events over the years. Our memories and friendships will truly last a lifetime.

"Future Pharmacists," our time has arrived, and the future is ours. I challenge each of you to remain active in our college and profession. We can join our pharmacy associations, attend meetings, speak up, and make our profession the best ever. As we embark on our professional careers, let us always reflect back on our years at the UT Memphis College of Pharmacy with fond memories of good times and good friends.

The Class of 1993 is a family in the truest sense of the word. Like a cross between the Huxtables and the Simpsons, we laugh, play, love and fight. Like any large group of highly motivated, opinionated individuals, we have our disagreements. However, when tough times come and we need help, we can, without hesitation, turn to our fellow classmates and know that they will always be there for us.

Senior Class Trip

Sunday, October 20, 1991 at a very early 5:45 a.m. (thanks to LBJ), 27 of us boarded the "Arthur Express" headed toward Indianapolis with our "chaperon" Dr. Art Straughn. Moments later the first party ball was tapped and we were off. Several trips to the infamous bathroom of many odors and a new pair of pants later we stopped for breakfast at Lambert's Restaurant, "home of thrown rolls", where not only were rolls thrown but spiced apples as well. By noon, Art was pacing the aisle on the bus, his mouth watering with anticipation as the second party ball was tapped. Upon our arrival at Indianapolis we met up with four more of our classmates and Memphis Eli Lilly Reps Joyce McNaughton and John Adams. After checking into our plush hotel rooms, the Lilly Adventure began.

Lilly wine and dined us with luncheons and dinners each day preceded by exceptionally interesting lectures and tours (NOT!!). At any rate we managed to escape each night into the city for some of our own wining and dining (mostly wining). After 40+ people in Art's room for a happy hour, male strippers, dancing, and a tabletop gymnastic performance that was classic, we tramped back to our rooms, leaving Art wondering "This is just Indianapolis, how in the hell am I going to control them in Chicago?" Fortunately, no arrests were made, although one officer slowed down to see just exactly what Dawn was doing flagging down cars in the middle of the road.

From Indianapolis, 25 of us (no we didn't kill anybody off) jumped back on the bus in full anticipation of Chicago. On the way we stopped off at the Indianapolis 500 Raceway for a hair-raising spin around the track. In Chicago we enjoyed such activities as: The Sears Tower (where we watched a huge thunderstorm close in), Phantom of the Opera, Hard Rock Cafe, Excaliber, Mother's (Lynn, stay away from those statues), Harry Caray's, a variety of museums and shopping galore (some of us are still paying off those credit cards). A few of us saw Soldier Field and braved the subway to visit Wrigley Field. Others tried their luck with Chicago taxis. We became practiced contortionists after discovering that it is, in fact, possible to squeeze nine people (excluding the driver, but including Joe) into a cab. One big highlight was the national television debut of a select group of the Class of '93 on the Oprah Winfrey Show. The shows were titled "Couples who kill" (aired Nov. 13) and "Daddy married the housekeeper" (Due to the thrilling nature of this show, an airdate of August 3, 2063 has been established — Just kidding, it was supposed to air Nov. 20).

We concluded our sabbatical with a cultural ho-down at Gino's Pizza on Rush Street, where several bottles of nail polish were sacrificed in order for us to leave our mark for posterity. We hopped on the bus for a quick trip to the Chicago Stadium to take in the Chicago Bulls Game (and yes, Michael Jordan, actually played). Our trip was far from over as we could not seem to find our way back on to the Interstate. After a few anxious moments winding our way through Chinatown, we enticed a local stranger with a plate of brownies to get directions. "McDonalds was the KEY" we were told and we were off at warp speed, as Arthur was obviously anxious to get back in record time (to spend that tip we gave him).

Our trip gave us many memorable moments as expressed by the following highlights: Art (Close the shades the girls are here" Straughn, Amy "Slippery when wet" Aldridge, Beth "He got my leg wet" Anderson, Doug "Just call me James Ball: Photo-spy Extraordinaire" Ball, Jason "Mr. Souvenir" Batchelor, Lynn "Is that a smartie in my ear?" Blackwell-Jones, Dawn "Streetwalkin'" Chandler, Jason "How do you pump this thing?" Coleman, Trish "Generic Tourist #1 (in other words she stayed out of trouble)" Davis, Kim "Let me show you how to pump it, Jason" DeVore, Rachel "All it takes is a quarter" Erranton, Cathy "Let me have it in the face" Eschmeyer, Richard "Oh my God, we are on the wrong subway!" Jennings, Steve "How much does that cost?" Lane, Rick "Bar-FLY" Learned, Angela "See you guys later" Link, Mark "Schwiiling" McMinn, Joe "Uhhh ... Okra" Martin, Susan "Follow me GUYS I know a short cut" Mayhew, Patricia "I want a quickie" Miranda, David "I don't care if it is 5:30 a.m., give me a bear" Neu, Julie "Generic Tourist #2" Palmer, Robbie "It's only Wednesday and I miss Elizabeth" Price, Wendy "I absolutely, positively, refuse to use that bus bathroom" Russell, Kelly "Dial 911" Simpson, Jessica "Slash" Smith, Denise "Powder Balls" Springer, DeDe "Cheeky Monkey" Stanley, Kent "I should be talking to someone" Stoneking, Traci "Oprah stole my question" Turner, and last but certainly not least, Caroline "The Mushroom Queen" Zeind.

This was a much needed trip, especially after the s@!# we went through last year. Either we've finally made it over the hump or the jump has finally rolled over us. All and all it was a trip some of us will never forget and, just in case we do, there are pictures to prove every bit of it.

Thanks for the great time!
David A. Neu and Lynn Blackwell-Jones

On August 20, 1990, 73 students walked through the doors of the GEB with anxiety and dreams of just surviving the ever demanding schedule of a UT Pharmacy student. A year later, now in our second professional year, our fears have been somewhat calmed and our focus has shifted to increasing our knowledge to better serve others in the near future. Our class has learned the value of time management skills in order to incorporate other important activities. Although we all understand the necessity to maintain good academic standing, we have realized that school is not the only vital aspect to a career in Pharmacy. Therefore, the Class of 1994 has taken an active participation and the majority of the leadership roles among the various organizations within our school. Between our classes and organizational involvements, we make an effort to join the competitive school intramurals or at least cheer classmates on. Overwhelmed by the various opportunities that lie ahead we can not imagine the rewards we will reap once we begin to practice. For now, we plan to face obstacles day by day and cherish the lifelong friendships we have made.

The Pharmacy Class of 1995 has discovered that Pharmacy School is everything it promised to be AND MORE!! The year began with Rush parties, Orientation, and other functions that gave everyone the chance to become acquainted. Class officer elections were held, and Mary Lisa Phillips was elected President, Laura Arnold and Jim McMackin — Vice-Presidents, Gretchen Holman — Secretary, Kelley Britton — Treasurer, Heidi Baumann and Shane Moore — Athletic Directors, Camille Pickens and Denise Trent — Social Chairperson, and Gina Bryant — Class Counselor.

Goals were formulated and the class decided that "Unity" is the Key! Committees were developed such as fundraising, community service, and faculty appreciation that give everyone the opportunity to be involved! *Busy* is definitely the word to describe the Pharmacy Class of 1995, and we are excited about the next four years!

The Academy of Student Pharmacists (ASP) is an organization that expands pharmacy education beyond the classroom and introduces students to the workings of the "real world" of pharmacy. ASP offers students the opportunity to develop relationships not only with students from the UT campus, but also with pharmacists and students from the local area, the state, and the nation. ASP's strength as an organization comes from the participation of its members who work on the organization's fifteen different committees. There is a place for everyone. ASP is proud of its membership because it includes almost every pharmacy student. Throughout the year, ASP sponsors many different events such as ASP day and Patient Counseling Competition in the fall, as well as, the Drug Fair, Geriatrics Day, and the Golf Tournament in the spring. ASP activities wind down with an awards banquet, in the spring, which recaps the year, celebrates our achievements, welcomes incoming students, and allows some relaxation before finals.

For the Omega Chapter of Phi Delta Chi, the 1991-92 academic year has been packed full of successes. The Omega Chapter received four national awards, one of which was the prestigious Prescott Award for academic achievement. In addition, Rush '91 proved to be a great success with all brothers getting to know the first year students, making new friends, and most importantly, establishing fraternal bonds with thirty-two new brothers in Phi Delta Chi. These brothers enjoyed a unique, fun-packed pledge program designed to educate, challenge, and develop them as future leaders in pharmacy. This program was complete with dinners, a retreat to Lake Fort Smith, Arkansas, gathering at the fraternity house to watch UT Football games, a trip to a local nursing home to distribute gift bags, a fundraising bakesale, and a Mexican Fiesta. The program culminated on January 11th as the pledges became brothers through the process of initiation into Phi Delta Chi which established fraternal bonds never to be severed. Throughout the year, the brothers continued the tradition of service to the community by donating clothes to the Memphis Inter-Faith Association, giving blood in support of the annual SNPhA blood drive, visiting a local nursing home with Kappa Psi to sing carols and share the joy of the Christmas season, and having our annual Christmas party with children from the Big Brother — Big Sister program of Memphis, complete with a traditional Christmas dinner. In addition to serving toys for the children, and a visit from Santa's helper. In addition to serving the community, the Phi Delt's enjoy serving the campus by hosting two annual stress-relieving parties, the fall Jungle Party and the spring MASH Party. As a result of Phi Delta Chi's service to the campus through holding key leadership positions, and academic excellence, the brothers of Phi Delta Chi are truly Leaders in Pharmacy.

Kappa Psi at UT has had an exciting year! As a professional pharmacy fraternity, Kappa Psi is dedicated to promoting the growth of each member and improving the pharmacy profession as a whole. The brothers of Kappa Psi divide their time between community service projects, social activities, leadership activities, and scholastic achievement. Kappa Psi kicked off the 1991 school year with the traditional Welcome Back Party Rush soon followed with highlights including the annual Buffalo River Canoe Trip, the Kamanawaunaleiu Party, Blindfold Bowling, the UT Football Party, and a formal rush banquet with special appearance by our very own "Psi Ice." A successful rush brought to the brotherhood 35 new pledges. The Big Brother/Little Brother Banquet, the Halloween Party, intramurals, and the trip to the Kappa Psi Province Seven Meeting in Austin, Texas, are just a few of the activities that Kappa Psi took part in this year. Community service projects included spreading Christmas cheer at Oakville and St. Peter's nursing homes, and the first annual "Buy a Psi" charity date auction which was a successful fundraiser for the Salvation Army Christmas Angels. Other projects included participating in the blood drive and food and clothing drives. Whether participating in community service, leadership, or social activities the brothers of Kappa Psi always pull together in the years spent at UT Memphis.

RHO CHI

Rho Chi is an academic honor society that accepts the top 20 percent of the class (with 15% during the second year and an additional 5% in the third year). Aside from the annual initiation banquet in the spring, Rho Chi provides several traditional services to the College of Pharmacy including the annual used book sale and the selling of the Remington Pharmaceutical Sciences book and other required textbooks at a reduced cost to students. New projects initiated this year include: a summer letter to the newly accepted P-1's, a Graduate Files Program, an updated alumni address list, a monthly Faculty Publication Display, co-sponsor of the first Residency Showcase, and participation in a UT Curriculum Review National Research Project. It is quite an honor to be a part of this prestigious group.

PHI LAMBDA SIGMA

Phi Lambda Sigma is a National Pharmacy Leadership Society that was organized in 1965 at Auburn University. The Theta Chapter was chartered at the University of Tennessee in 1980. Phi Lambda Sigma seeks to recognize students, alumni, and faculty whose leadership abilities have contributed to the professional advancement of pharmacy. Phi Lambda Sigma plays a crucial role in recognizing, encouraging, and promoting leadership in pharmacy.

Organizations

PSGA

The Pharmacy Student Government Association is the student organization that represents all students of the College of Pharmacy in some form or fashion. Made up of presidents of the classes, fraternities, and honor organizations, the PSGA has tried to be very productive and leave its mark on campus. Some of the activities PSGA has been involved with include the annual P-1 orientation dinner, the annual Student Retreat, Pharmacy Weekend, Support of the Church Health Center, a letter writing campaign, and participation in the Adopt-A-School program. It is always satisfying to students to be able to participate in these programs. The PSGA will continue to serve the College of Pharmacy and make life a little better for everyone.

Jamey Collier

L to R, Front Row: Kim McCullough, Sandy Brown, David Neu, Angie Pentecost, David Wynn. **Back Row:** Mary Lisa Phillips, Rick Learned, Rick Malone, Brian Odle, Jamey Collier, Angela Link.

HONOR COUNCIL

The Honor Council of the College of Pharmacy is a student operated system that is responsible for the implementation and administration of the UT Memphis Honor Code. The Honor Code is designed to create an atmosphere conducive to high academic standards, and also to establish an ethical responsibility which will be carried out into the practice of pharmacy. This year the Honor Council conducted a survey of the students' perception of the Honor Code and to see in what ways the students felt that the Honor Code could be improved. The Honor Council also distributed a brochure to the pharmacy students concisely explaining the Honor Code, and continued to answer questions concerning the Honor Code, as well as making the students aware of the policies of the Honor Code. It is a great honor and responsibility to serve on the Honor Council, as members are elected from their own class based on their honor and integrity. The Honor Council is composed of 3 active representatives and an alternate from each of the four classes. This year's members have worked diligently, and have been exemplary representatives of their respective classes.

David Wynn

The Student National Pharmaceutical Association

The Student National Pharmaceutical Association is an organization whose mission is to meet the challenges of the continuously expanding role of the pharmacist, and to direct health care expertise to improving the advent of health care in minority communities. Since its beginning in 1989, membership, as a result of the chapter's impact on campus, has increased considerably. Members not only involve themselves with pharmacy related issues, but direct their interest towards other health care related issues. This year has been no exception. With everyone on one accord with the same goals, members participated in projects such as blood pressure screening for the elderly, high school recruitment, and a campus-wide blood drive campaign. As a result of the chapter's yearly activities, members received two first place trophies for chapter excellence and professional service.

TAPESTRY

Our lives are but fine weavings
That God and we prepare
Each life becomes a fabric planned
And fashioned in His care . . .
We may not always see just how
The weavings intertwine,
But we must trust the Master's hand
And follow his design.
For He can view the pattern
Upon the upper side,
While we must look from underneath
And trust in Him to guide.
Sometimes a strand of sorrow is
Added to His plan,
And though its difficult for us,
We still must understand
That it's He who fills the shuttle
It's He who knows what's best,
So we must weave in Patience
And leave Him to the rest . . .
Not till the loom is silent
And the shuttles cease to fly
Shall God unroll the canvas
And explain the reason why —
The dark threads are as needed
In the Weaver's skillful hand
As the threads of gold and silver
In the pattern He has planned.

SOCIAL WORK

Joy McCalla
— Editor —

PIECING *it all* TOGETHER

As professional social workers, we are committed to the process of helping individuals, families, groups, and communities to improve or restore their capacity for social functioning and to create societal conditions favorable to their goals.

Our challenge is to assist our clients/patients in putting the pieces of *their* puzzle together in order to lead more productive, healthier and satisfying lives.

— Joy McCalla

Student Council Launches New Initiatives

The UTCSW became very involved this year in a number of new projects. The student council launched several new activities to benefit students and faculty. Council members developed a field work file that evaluated current field placements for future students. Also, the council began sponsoring monthly Journal Club meetings with different students presenting and monthly brown bag lunches with guest speakers discussing topics of interest to faculty and students. Council members also started a bi-monthly newsletter entitled *The Pages* that contained announcements from the president, editorials, and profiles on students. Students and faculty donated money to purchase a brick titled 1991-92 UT College of Social Work to go into the walkway leading to the Memphis Pyramid with proceeds benefitting MIFA.

Finally, our most successful and rewarding endeavor was our Carl Wilks Adopt-a-Family project. In memory of late professor Dr. Carl Wilks, social work students adopted a needy family. This family consisted of a single mother with twelve young children. Students and faculty donated very generously to this family during the Christmas season. Thanks to all of us, twelve children had the best Christmas they've ever had.

*If you want to be cool . . . and really hip
Form a hepin' . . . relationship
Start with a plan and objectivity
Seasoned with "love" and a little empathy*

*Treat that client with warmth and respect
Do much more than anyone expects
And if you . . . consciously use yourself
Your client will find wholeness and health*

*You gotta follow through with the plan to a tee
And don't you expect no sympathy
Just do your job with a little zest
Your client will do their very best*

Hepin' Relationship Rap

*The relationship will bloom and grow
Your client will leave feeling all aglow
Solving their problems . . . here and there
Takin' risks and meetin' dares*

*Now, here comes the hard part — letting go
Pushing your client right out the door
It won't come easy . . . termination phase
You'll struggle real hard, your mind's in a haze*

*But rest assured, you'll be all right
You've attended to process with all your might
(You can go on) home (and even sleep) at night
'cause you've formed a relationship
that works just right!*

We've Pieced It All Together For You!

Members of the 1992 Asklepieion Staff include: **L to R, Seated:** Pam Moon, Robert Blake, Joy McCalla, Karen Clenney, Maricela Rodriguez. **L to R, Standing:** Jan Dugan, Emily Barnes, Thomas Knapp, Connie Waters, Trisha Davis, Jeff Jaynes, Tina Dutt. **Not Pictured:** Bridget Ammons, James Asbury, April McClearn, and Ethan Porter.

The 1992 Asklepieion Staff chose the theme, "Piecing it all Together," as the theme of this yearbook because day after day, UT Memphis students piece together the intricate details and facts that they learn in classrooms and clinical experiences, and through this "piecing together," they become accomplished students and health care professionals.

Likewise, the Asklepieion Staff spent many long hours "piecing it all together" for this yearbook. Hundreds of photographs, layouts, pieces of copy, bits of information, photo identifications, and scheduling photographic appointments have all come together to create this lasting memory of the 1991-92 year at UT Memphis.

A special thank you is extended to Trisha Davis and April McClearn for completing their **THIRD** year on the staff, and for **ALWAYS** meeting the deadlines on time! Second year editors, Tina Dutt, Jeff Jaynes and Maricela Rodriguez worked together as an efficient team to put their section together in a timely manner!

For those who just began their experience on the staff, a special note of appreciation is extended to Bridget Sanders, Joy McCalla, Robert Blake, and Karen Clenney, for their tireless efforts and dedication to the yearbook. It's too bad for the Asklepieion that you all are graduating, but we hope you will look on this year as being very productive and exciting whenever you look at this yearbook!

To the photographers, Jan Duggan, Connie Waters, Thomas Knapp, and James Asbury, we thank you for your creative talent and energy. Photographs are the most essential element of the yearbook, and we appreciate the fine quality and effort you gave the book.

Thank you also to Emily Barnes for jumping right in and lending a helping hand when needed, and to Ethan Porter for completing the intramural section!

Without the help and assistance of Jan Dugan, this publication would not have been possible. She was able to advise the student editors, schedule all the photos, take many of the photos (and develop and print them as well), draw layouts, and basically hold it all together throughout all the deadlines. Jan, we thank you for your commitment and enthusiasm. Your talent and creativity made all the difference, and we appreciate you and your abilities!

The entire staff joins me in wishing you well. We hope that you enjoy reviewing and remembering the year that we have pieced together in the 1992 Asklepieion!
