

Anesthesiology Research Fellowships for Medical Students

MEDICAL STUDENT ANESTHESIA RESEARCH FELLOWSHIP (MSARF) — SUMMER PROGRAM

- PURPOSE:** The MSARF Summer Program encourages medical students to enter careers in academic anesthesiology and provides research training.
- DETAILS:** Through the MSARF summer program, medical students are matched to anesthesiology departments across the country for eight-week research experiences. MSARF students conduct research, learn scientific methods and participate in clinical anesthesia activities alongside a mentor. The capstone of the program is the MSARF Symposium, where participants present their research projects via posters at the ASA annual meeting. Students receive a \$400 per-week stipend.
- APPLY:** Student applications for the 2015 MSARF Summer Program are due December 15, 2014. Application instructions are available on FAER.org/MSARF.

MEDICAL STUDENT ANESTHESIA RESEARCH FELLOWSHIP (MSARF) — YEAR-LONG PROGRAM

- PURPOSE:** The MSARF Year-Long Program aims to provide significant training in research techniques and scientific methods to students who are interested in academic anesthesiology.
- DETAILS:** The year-long research fellowship is intended for medical students who are seeking to develop skills in research related to anesthesiology. It is for those who would like to take a year out of medical school to focus on research and who have completed their core clinical rotations but have not yet graduated. During the 12-month fellowship, medical students will conduct research alongside a mentor within an anesthesiology department. Students receive a \$32,000 stipend, plus additional funds for research.
- APPLY:** Student applications for the MSARF Year-Long Program for the 2015-16 academic year are due December 31, 2014. Application instructions are available on FAER.org/MSARF.
- LEARN MORE:** FAER.org/MSARF
