Aging, Dementia, and Developmental Disabilities: A State and Community Forum

The Forum will provide helpful information to individuals with developmental disabilities and families, direct support providers, clinicians, program staff and administrators, and public policy makers concerned about adults with intellectual and developmental disabilities who are at risk of or who are experiencing Alzheimer's disease and related dementia.

Program will include:
- Overview of Aging and Dementia and Program Options
- Treating Dementia in Individuals with Intellectual and Developmental Disabilities
- Screening, Assessment, and Diagnosis
- Social Care Issues and Strategies
- Panel and Small Group Discussions
