Pediatric OSA Symposium

Bridging the Gap Between Dentistry and Medicine

Whether you are new to this field or an expert, whether you are a dentist or physician, whether a clinician or academic you need to attend this symposium. Learn the differences in diagnosis and treatment of pediatric versus adult OSA. The most current research will be unveiled on dynamic non-surgical treatment for pediatric OSA. Most importantly you will come away with an understanding and working model of how medicine and dentistry can work together for optimal treatment for our children who suffer from OSA.

Robert Schoumacher, MD, DABSM, Professor of Pediatrics & Otolaryngology at UTHSC, Director, Pediatric & Adolescent Sleep Disorders Center at Le Bonheur

Steven R. Olmos, DDS, DABCP, DABCP-COSM, DABDSM, DAAPM - Founder, TMJ & Sleep Therapy Centres International

German Ramirez, DDS, Pedo Cert, MDSc, PhD, FRCDC • Duane Grummons, DDS, MSD, Diplomate, American Board of Orthodontics

David Singh, DDSc, PhD, BDS, FIAO - BioModeling Solutions, Inc

Joan Han, MD, Director, Pediatric Obesity Program, Associate Professor, Division of Pediatric Endocrinology Dept. of Pediatrics

Leila Kheirandish-Gozal, MD, MSc, Professor of Pediatrics, Director of Clinical Sleep Research, University of Chicago

Judith Owens, MD, MPH, Professor of Pediatrics, George Washington School of Medicine & Health Sciences

Kristen Hedger-Archbold, RN, PhD, Associate Dean, UTHSC

14 CE Units

The formal continuing dental education programs of this program provider are accepted by AGD for Fellowship/ Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from January 2012 to December 2015.
Robert Schoumacher, MD  
Dr. Robert Schoumacher is a pediatric pulmonologist in Memphis, Tennessee and is affiliated with multiple hospitals in the area, including Le Bonheur Children’s Medical Center and Methodist Healthcare Memphis Hospitals. He received his medical degree from Vanderbilt University School of Medicine and has been in practice for 32 years. He’s board certified in Pediatrics with 26 years of practice in the field. He has won Castle Connolly’s Top Doctors® 2012. Graduated from highly rated Vanderbilt University. Doctor Schoumacher is a published author, having articles in peer reviewed journals.

Steven Olmos, DDS  
- DABCP, DABCPDM, DABDSM, DACDSD, DAAPM, FIAO, FFAOP, FAACP, FICCMM, FADI  
Dr. Steven Olmos is an internationally recognized lecturer, researcher, and the founder of the TMJ & Sleep Therapy Centres International. He graduated from the University of Southern California School of Dentistry and has dedicated the past 28 years to the fields of craniofacial pain, TMD and sleep disorders. He has extensive post graduate education and board certifications in both craniofacial pain and dental sleep medicine and is an adjunct professor at the University of Tennessee College of Dentistry, where his system of diagnosis and treatment are utilized at the school’s Craniofacial Pain Center.

Joan C. Han, MD  
- M.D.  
Joan C. Han, M.D. is an Associate Professor in the Division of Pediatric Endocrinology, Dept. of Pediatrics, University of Tennessee Health Science Center, and Director of the Pediatric Obesity Program at Le Bonheur Children’s Hospital. She graduated from Harvard College & Medical School, and completed residency in the Boston Combined Residency Program in Pediatrics at Boston Children’s Hospital and Boston Medical Center. She received her pediatric endocrinology training at Nemours Children’s Clinic in Jacksonville, Florida and at the National Institutes of Health Pediatric Endocrinology Fellowship Program.

Duane Grummons, DDS, MSD  
Dr. Duane Grummons is a board certified orthodontist, and has lectured before most American and worldwide orthodontic organizations. His frontal analysis, TMD publications and appliance innovations are sensible, useful and widely utilized. Dr. Grummons is internationally recognized for his clinically sensible approaches to facial orthopedics, frontal facial asymmetry, TMD management and non-extraction orthodontic treatments.

Leila Kheirandish-Gozal, MD, MsC  
Dr. Leila Kheirandish-Gozal is professor of pediatrics and the director of clinical sleep research in the Section of Pediatric Sleep Medicine at the University of Chicago. Her current research activities explore changes in the systemic vasculature that may reflect morbid consequences of sleep disorders in children as well as the presence of rare gene variants that may shed light into mechanistic determinants of sleep apnea in children.

Kristen Hedger-Archbold, RN, PhD  
Dr. Kristen Hedger Archbold is Associate Professor and Associate Dean for Research at the University of Tennessee Health Science Center College of Nursing. Her current NIH funded R01 is the first of its kind to use sham CPAP in children with obstructive sleep apnea in order to determine the effects of adherence to PAP therapy on their neurocognition and behavior. Dr. Archbold’s BSN and PhD are both from the University of Michigan, Ann Arbor. Her postdoctoral studies included Neurology at the University of Michigan and Nursing at the University of Washington, Seattle, Washington.

Judith Owens, MD, MPH  
Dr. Judith Owens is Director of Sleep Medicine at Children’s National Medical Center in Washington DC and Professor of Pediatrics at George Washington University School of Medicine and Health Sciences. She is an internationally-recognized authority on pediatric sleep and the author of over 125 original research and review articles in peer-reviewed journals, chapters, and books on the topic. Her particular research interests are in the neurobehavioral and health consequences of sleep problems in children, pharmacologic treatment of pediatric sleep disorders, sleep health education, and cultural and psychosocial issues impacting on sleep.

German Ramirez, DDS, Pedo Cert, MDSc, PhD, FRDCDC  
Dr. German Ramirez-Yañez is associated with the College of Dentistry, University of Manitoba in Winnipeg, and has his own practice in Aurora, Ontario, Canada. He has over 25 years of experience treating malocclusions and oral dysfunctions at early age with a functional approach. He has published more than 20 scientific articles in peer-review journals about functional appliances and the biological rationale for functional treatment of malocclusions and authored books. He is a member of the editorial board of the Journal of Dentistry and Oral Health and the Journal of Orthodontic Science and Practice.

### CANCELLATION POLICY:

Tuition is completely refundable if the symposium is canceled by the Continuing Dental Education department, or if the registrant cancels more than 30 days prior to the symposium. For cancellations made less than one month prior to the symposium the registrant may apply the entire fee to another course or receive a 50% refund. Course cancellations requests must be received in writing. It is the responsibility of the participant to confirm that request has been received by the Continuing Education department. No refund will be given for cancellations made less than 7 days prior to the symposium. “No shows” will forfeit the full tuition. The University requires proof that checks cleared the bank before refunding tuition paid by check. Tuition paid by credit card will be refunded to the card charged for the tuition. Refunds made to credit cards will incur a 5% surcharge. Questions? Email: utcde@uthsc.edu or Phone: 901.448.5386.
Whether you are new to this field or an expert, whether you are a dentist or physician, whether a clinician or academic you need to attend this symposium. Learn the differences in diagnosis and treatment of pediatric versus adult OSA. The most current research will be unveiled on dynamic non-surgical treatment for pediatric OSA. Most importantly you will come away with an understanding and working model of how medicine and dentistry can work together for optimal treatment for our children who suffer from OSA.

Don’t Miss This Special Event!

The University of Tennessee Health Science Center College of Dentistry is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Accreditation & Credits:
The University of Tennessee Health Science Center, College of Dentistry is designated as an Approved PACE Program Provider by the Academy of General Dentistry. The formal continuing dental education programs of this program provider are accepted by AGD for Fellowship/Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from January 2012 to December 2015.

The University of Tennessee Health Science Center College of Dentistry designates this activity for 14 continuing education credits.
