All treatments entered after OD will require a treatment consent.

You will see the above in the Treatment History tab. Click on the red dot at the bottom of the screen to get the below image.

Click on the ellipsis and select the appropriate consent form, TREAT – treatment consent in most instances. Select from this screen.
Click “OK”.

Select the treatments in which no consent has been obtained and click “OK”. The ones ‘needing’ consent will also be identified with a red dot.
Enter the procedure descriptions for which consent is being obtained. Click “OK” and then obtain patient’s signature.
