**Important Notices**

A consultation appointment is required for all procedures that will involve the use of general anesthesia, intravenous sedation, or dental implants. This consultation appointment is required to evaluate your condition, review your medical history, and discuss treatment options, as well as the type of anesthetic that will most suit your needs. Procedure fees and insurance coverage/preauthorization will also be discussed during this visit.

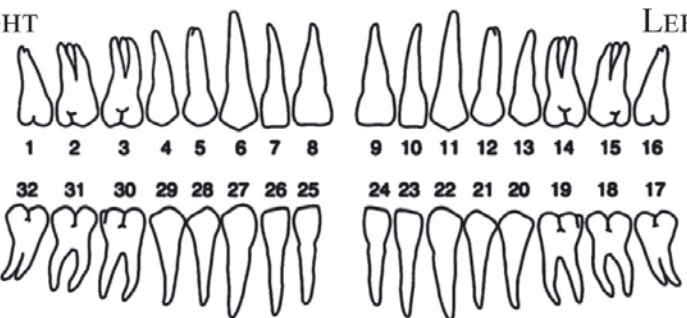

Please be advised that there is a charge for evaluation and for a radiograph if deemed necessary. If a current radiograph is provided, there will be a charge for the evaluation. Treatment at the College of Dentistry is neither free nor income-based. There are no payment plans for oral surgery. Thank you.

**PLEASE INDICATE TEETH/AREA TO BE TREATED**
