“Cross Specialty Communication In Integrated Care”

46th Annual Family Medicine Review Course and the
7th Family Medicine/Psychiatry CME Conference

April 11—13, 2014

Fogelman Executive Center and Conference Hotel
Memphis, TN

sponsored by

THE UNIVERSITY OF TENNESSEE HEALTH SCIENCE CENTER
DEPARTMENTS OF FAMILY MEDICINE AND PSYCHIATRY

Registration Form online at  uthsc.edu/fammed

The University of Tennessee is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA institution in the provision of its education and employment programs and services.
ACCREDITATION
The University of Tennessee, College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CREDIT
The University of Tennessee, College of Medicine designates this live activity for a maximum of 20 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

LODGING
A block of rooms has been reserved at the University Holiday Inn Hotel, 3700 Central Avenue, Memphis TN 38152, (901) 678-8200, directly across from the Fogelman Executive Conference Center. The special conference rate is $119.00 single/double plus taxes. Please make your own reservations if overnight accommodations are needed and ask for group “University of TN Family Medicine Psychiatry Conference”. Special rates are available until March 10, 2014, or until the block is full, whichever occurs first. Once Holiday Inn’s block is full, Fogelman will be offered at $97.00 per room.

LOCATION
This symposium will be held at the Fogelman Executive Conference Center, 330 Innovation Drive, Memphis, TN 38152.

PARKING
For free parking participants should park in the parking garage next door to the Fogelman Executive Conference Center at 330 Innovation Drive. Please bring in your white ticket to exchange for an exit ticket. Parking in other locations will not be validated.

PURPOSE
The purpose of this joint program is to provide practicing physicians, nurse practitioners, physician assistants and other health care professionals an update regarding selected topics of importance integrating family medicine and psychiatry.

EDUCATIONAL OBJECTIVES
Following this activity, participants should be able to:

- Screen for and identify dementia in a primary care setting
- Improve screening for and arrangement for treatment of a greater portion of patients with depression.
- Use two new pharmacology agents to treat depressed patients.
- Make better-informed decisions about athletic participation after athlete patients suffer a concussion.
- Recognize a potential adverse effect of high stress competition: substance abuse.
- Diagnose hyperparathyroidism in its early stages to prevent secondary complications.
- Recognize new areas of research and treatment that will facilitate mental health services in future health systems.
- Select mental health services for rural practitioners.
- Argue for better patient outcomes by using in-house mental health services in your practice.
- Use a strategy to enhance access and utilization of your practice by adolescents.
- Ask questions of the experts to solidify understanding of issues covered in the morning session.
- Develop a public health perspective when considering Mental Health services.
- Arrange appropriate evaluation and treatment plans for suspected Autistic Spectrum Disorder patients.
- Identify risk factors for Adult ADD patients, and order appropriate testing to confirm a clinical suspicion of adult ADD.
- Coordinate treatment of your college-aged patients when they seek consultation at their college health service.
- Devise an office system for improving the number of anticoagulant patients achieving their target INR.
- Confidently counsel a family about the level of functioning of an elderly family member and suggest compensatory measures.
- Use some insights about family dynamics to structure an effective family counseling session.
- Consider reorganizing the medical services you provide to make it an evidence-based, team-oriented, easy access practice that will be more outcome based to align with future reimbursement schemes.
