Debt Reduction

Consumer Debt Statistics
Web-based financial source, Money-Zine™ sites the following concerning consumer debt.
“The latest statistics from the Federal Reserve indicate consumer debt in the United States continues to increase, reaching nearly $3.2 trillion in July 2014. According to statistics published by the Census Bureau, that works out to over $10,200 in debt for every man, woman and child that lives here in the United States. The $10,200 per person doesn’t include debt associated with mortgages.”

To assist employees with all aspects of their financial goals we are offering a class on debt reduction. Now that you may have freed up additional money in your existing budget using coupon strategies, what should you do with it?
