            Fitness Demonstration
The Training and Professional Development Expo is designed to showcase various types of training opportunities on campus. The expo will feature displays from 10 departments with information ranging from financial fitness to personal fitness; and library services to policy compliance and more.

In addition to showcasing training opportunities, the expo will promote benefits that support professional development like the Employee Computer Purchase Program and Educational Assistance. A representative from the UT Knoxville Computer Store will be on hand to discuss and display the types of hardware, software, and other technology available. The HR department will have information about educational assistance benefit and the colleges and universities employees may attend.

The Training Advisory Committee Wants to Hear From You! Employees will be asked to complete a training survey. Results will guide the work of the TAC in planning for future training programs on campus. All who complete the survey will double their chances of winning the grand prize given at the expo.

This event will be exciting, educational, and entertaining! Light refreshments will be served and door prizes will be given throughout the expo.
