Q6. Can I complete my entire 4th year at a campus outside of Memphis?

A6. Yes and no. This is highly dependent on the specialty he or she wants to pursue and at which campus. Furthermore, it is possible for students to complete 100% of their 4th year requirements in Knoxville or Chattanooga because both Capstone and Geriatrics/Palliative Medicine are offered at these locations; however, specialty options vary based on campus. Students at this time cannot complete all 4th year requirements at the Nashville campus but can choose from a limited selection of junior internships and 4th year electives. *

*Page 5 lists each specialty department and if there are any 4th year clinical offerings available.

Q8. I applied to an away rotation/intend to apply, but I don't know if I've been accepted. How do I schedule that in eMedley?

A8. There are 2 parts to this answer:

1. If it is 30 days or more **before** the start date of the scheduled away rotation block scheduled in eMedley, you can drop the rotation and schedule an available UT alternative.
2. If it is **less** than 30 days from the start date of the scheduled away rotation block, contact Jenn Wilson jmcadoo3@uthsc.edu as soon as you find out for assistance in finding an alternative rotation for that block.

Q9. What is the start and end dates of an away rotation do not line up with UT's block start and end dates?

A9. Schedule a 2- or 4-week option block before or after the block that most closely aligns with the away rotation start and ends dates. This will allow you to complete the away rotation without causing an overlap in your clinical schedule.
