

Exam Information

M2 - M2026 Fall Exam Schedule (2023)

➤ *Your Testing Groups have not changed.*

Assessment Dates

Your Assessments are administered through EXAMPLIFY and will have approximately 100-125 questions. The exams will last anywhere from 2½ -3 hours with 80 seconds per question. Assessments are scheduled in the C109 Computer Lab located in the GEB. Students are randomly assigned to a Testing Group and these groups will alternate testing times. There are no exceptions to this policy (see Time Change Request on the right).

You should arrive NO LATER than 5 minutes prior to your exam time. We may begin the exam promptly at the scheduled start time or earlier. Failure to report to the exam location on time may result in not being allowed to take the exam at that time and will have to be rescheduled.

M1 Assessments Time Frames

Assessments are scheduled for 3 hours

You must notify Dr. Sheehy, Ms. McQueen, & Course Directors **immediately** to reschedule for emergencies or acute illness. Students are allowed to request to switch to another test group once per semester. Requests should be submitted to Dr. Cantrell via email at least 2 weeks prior to your assessment date. Requests are approved on a case-by-case basis and must be justified. Acceptable reasons to swap test groups include things like out-of-town travel or difficult to schedule/urgent medical appointments. Scheduled preceptor visits, meetings with your research team, or other extracurricular activities do not qualify. These things should not be scheduled on assessment days. If your request is approved, you will be responsible for finding a fellow student to swap with you.

Your request is pending until Dr. Sheehy has confirmed the change.

If you have a last-minute emergency on test day, you must contact Ms. McQueen as soon as possible via Phone Call, Text Message, or E-mail.
