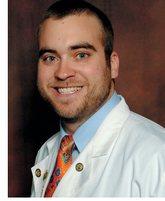
Life Changing

University of Tennessee Health Science Center

College of Pharmacy

Memphis



"Coming from a small town in rural Tennessee, I wasn't sure if I would enjoy living in Memphis. However, I have fallen in love with this city. Memphis has so much to offer -- Grizzlies basketball, concerts at the FedExForum, biking on the Greenline and much more. I'm glad I chose to stay in Memphis."
Joshua C. Sanders, PharmD Candidate, Class of 2015

Nashville

"I appreciate the chance to network and build connections with professionals in the geographic area I would like to practice in as a pharmacist. As Nashville is my home, the opportunity to be closer to family and friends while continuing my professional education was one that I could not pass up."
Brandon M. Ladd, PharmD Candidate, Class of 2016

Knoxville

"I came to the UTHSC COP because of many different reasons, but I discovered my home at the Knoxville campus because of the smaller class size, the camaraderie between classmates, the ease with which I was able to interact with professors, and the beautiful mountains that serve as backdrop to my busy days."
Lisa M. Hayes, PharmD Candidate, Class of 2016

Our College

We prepare our graduates to be practitioners and leaders in all areas of the field of pharmacy: clinical specialties, community practice, teaching and research. The University of Tennessee Health Science Center College of Pharmacy is:

OUTSTANDING. The UTHSC College of Pharmacy dates back to 1898, and we are consistently ranked in the top 20 colleges of pharmacy in the nation.

PROGRESSIVE. Our curriculum allows students to immediately begin their pharmacy coursework. Our student pharmacists spend three semesters studying therapeutics, and three semesters engaging in advanced practice experiences.

GLOBAL. Our student pharmacists can take advantage of our International Program, which allows students to participate in a month-long clinical experience in one of 12 foreign countries.

DISTINCT. We are the only College of Pharmacy in Tennessee that offers both PharmD/PhD and PharmD/MBA programs.

THE BEST CHOICE FOR PHARMACY EDUCATION IN TENNESSEE. UT offers the state's best value in pharmacy education, coupled with a combination of tradition, innovation and affordable tuition.

STATEWIDE LOCATIONS

Students have the opportunity to complete their education in UT Health Science Center facilities in West, Middle or East Tennessee. All students spend their first nine months on the Memphis campus. After this, students have the opportunity to move to Knoxville or Nashville for the remainder of their didactic coursework. During the final year and a half, students may complete their clinical rotations in Memphis, Knoxville, Nashville or other sites across the state.

Our Faculty

We have an outstanding resource in the practitioners and researchers who educate our students. The UTHSC College of Pharmacy faculty is:

EXTENSIVE. Located across the state of Tennessee, the UTHSC College of Pharmacy faculty comprises 70 full-time and more than 300 part-time and affiliated faculty members who teach our students in the classroom and on pharmacy practice experiences.

EXCEPTIONAL. Our college is home to the largest number of board-certified pharmacy specialists of any college in the nation -- there are more than 100 on the faculty.

AWARD-WINNING. Dozens of our current faculty members have won prestigious national and international awards for education, research, clinical care and public service.

DEDICATED TO RESEARCH AND SCHOLARSHIP. Our faculty collaborates with colleagues, students, residents and fellows to conduct research to make drug discoveries and improve patient care every day.

REGIONAL OUT-OF-STATE TUITION DISCOUNT

Effective fall 2014, UTHSC College of Pharmacy students who reside outside the state of Tennessee, but within 50 miles of Memphis (Shelby County), qualify for a regional out-of-state tuition discount. These students' tuition will be discounted by 75 percent off the out-of-state tuition differential. Please see our website for qualifying Arkansas and Mississippi ZIP codes.

Our Students

We look for students from a multitude of backgrounds who are qualified and motivated to serve their community and their profession. The UTHSC College of Pharmacy student body is:

DIVERSE. Members of our student body come from all walks of life, giving our program racial, ethnic, religious and cultural depth. More than 10 percent of our enrollment is African-American, giving us the largest percentage of African-American students of any program outside of the five historically Black colleges of pharmacy.

INVOLVED. The college supports several student organizations, all of which give students the opportunity to perform community service and to participate in health care education outside the classroom. These activities have led to numerous national and regional awards.

ACADEMICALLY SUCCESSFUL. Our graduates consistently achieve national board examination scores, pass rates and residency match rates above the national average.

CONNECTED. Once our students graduate, they become part of a network of alumni that spans Tennessee, the nation and the globe. This same network provides current students an unrivaled resource of passionate practitioners and educators in all areas of the field of pharmacy.

EMPLOYED AFTER GRADUATION. More than 97 percent of our graduates report employment within three months of completing the program.

Admissions

We are looking for students who meet our academic expectations, and who also have a passion for the field, love patient care, engage in their community and are determined to succeed!

Prerequisite Coursework

General Chemistry	8 hours
Organic Chemistry	8 hours
General Biology	8 hours
Microbiology	3 hours
Biochemistry	6 hours
Anatomy/Physiology	8 hours
English	6 hours
Statistics	3 hours
Calculus	3 hours
Communications	3 hours
Social Sciences	6 hours
Humanities	6 hours
General Electives	22 hours
Total	**90 hours**

PREREQUISITE COURSEWORK. Our average admitted student has an overall GPA of approximately 3.4 and a science GPA of approximately 3.3.

PCAT. The national average is the 50th percentile; our average admitted student has a composite score around the 60th to 70th percentile.

PHARMCAS. February 1 is the deadline, although we recommend submission of materials in the fall, one year prior to planned enrollment. UT also participates in the PharmCAS Early Decision Program. It has a submission deadline of September 1.

ON-CAMPUS INTERVIEW. After reviewing applications, the Admissions Committee invites selected applicants to interview between September and March. Interviews take place in Memphis or Knoxville.
