QUESTIONS? EMAIL CNP@UTK.EDU

All participants will receive a Statement of Attendance reflecting actual contact hours. This activity provides 5.0 contact hours through The University of Tennessee College of Nursing and The University of Tennessee College of Pharmacy.
The University of Tennessee College of Nursing is an approved provider of continuing nursing education by the Tennessee Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

LEARNING OBJECTIVES

1. Describe the FDA drug oversight process, including “boxed warnings”
2. Compare and contrast recently introduced drugs and changes in the therapeutic approach to various disease processes, including drugs used in mental health, drug addiction, pain management, cardiovascular health, diabetes, women’s health, dementia and miscellaneous conditions.
3. Appropriately counsel patients/clients on recently introduced drugs.
4. Appropriately respond to questions and concerns from patients/clients on recent reports in the pharmacologic literature.
5. Optimize pharmacologic therapy while minimizing drug-related problems.
6. Describe and apply the Tennessee Department of Health’s treatment guidelines on opioids, benzodiazepines, barbiturates and carisoprodol.

James S. Wheeler, PharmD, BCPS

James Wheeler is an Assistant Professor of Clinical Pharmacy and Translational Science at the University of Tennessee Health Science Center, Knoxville campus. He received his BS in 2007 from the University of Tennessee, Chattanooga, and his PharmD from the University of Tennessee in 2011. He completed a Pharmacotherapy Residency at the UT Medical Center in Knoxville from 2011 to 2013.

Following residency, Dr. Wheeler spent 2 years on the faculty at Wingate University School of Pharmacy in Charlotte, NC, then in July, 2015, joined the UT College of Pharmacy faculty. He teaches drug information, medication safety, and pulmonary medicine coursework at UT and serves as the Director of Continuing Education and Professional Development for the College of Pharmacy. His research interests include the opioid crisis, interprofessional education, continuing professional development, and workforce development. He is married to Sperry Kotsianas Wheeler, a Knoxville native.

CONTINUING EDUCATION

Pharmacy Continuing (ACPE) Education Credit The University of Tennessee College of Pharmacy (UTCOP) is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education (CPE). The ACPE Universal Activity Number (UAN) assigned to this activity by the accredited provider is 0064-9999-19-017-L01-P. This knowledge-based activity will provide 5 live contact CE hours. A statement of credit will be mailed to pharmacists who successfully complete the continuing education activity and request continuing education. Successful completion includes attending the entire session and completing the activity evaluation form. Your CE credits will be submitted electronically to NABP. To receive credit for your participation in this activity, all pharmacists must include their NABP e-Profile ID number, along with their month and day of birth. If incorrect information is provided, this will result in “rejected” status from the CPE Monitor. It is the responsibility of the participant to notify UTCOP (within the 60 day submission time frame) of their corrected information. Otherwise, the completed CE will not be accepted by the CPE Monitor. Pharmacists with questions regarding their NABP e-Profile or CPE Monitor should call (847) 391-4406.

Grievance Policy A participant, sponsor, faculty member or other individual wanting to file a grievance with respect to any aspect of an activity sponsored or co-sponsored by the UTCOP may contact the Associate Dean for Continuing Education in writing. The grievance will be reviewed and a response will be returned within 45 days of receiving the written statement. If not satisfied, you may appeal your grievance to the Dean of the College Pharmacy for a second level of review.
