TOP STORY

Meibohm President-Elect of American College of Clinical Pharmacology

Bernd Meibohm, PhD, professor of Pharmaceutical Sciences and associate dean for Research and Graduate Programs has been elected as 2012-14 president-elect of the American College of Clinical Pharmacology (ACCP). His term will begin during the ACCP Annual Meeting September 23-25, 2012 in San Diego. The president-elect is part of the executive committee and assumes the duties of the president in their absence. The president-elect succeeds the president once their two year term is complete. “Regarding the election, I am of course honored by the trust and confidence that the ACCP Board of Regents has put in me by electing me to this leadership role for the organization,” said Meibohm. “The American College of Clinical Pharmacology is truly an interprofessional organization in which pharmacists, physicians and scientists are working jointly together to improve drug development and applied pharmacotherapy. It overcomes the usual silo structure of other professional organizations and facilitates interactions among professionals as we all experience them in our daily work and practice.”

UPCOMING EVENTS

FEURT SYMPOSIUM
Wednesday, September 19

18th ANNUAL EMMETT MANLEY “PARSCRIPTION” GOLF TOURNAMENT
Wednesday, September 19
Mirimichi Golf Course, Millington

Meibohm President-Elect – continued

Dr. Meibohm received a BS in pharmacy and PhD in pharmaceutics from the Technical University of Carolo-Wilhelmina in Braunschweig, Germany. After completion of a clinical pharmacology research fellowship at the University of Florida in 1997, he joined the faculty of the University of South Carolina. In 1999, he joined the University of Tennessee. Dr. Meibohm’s scientific interests include pulmonary infectious and inflammatory diseases, pediatric pharmacotherapy and the application of quantitative modeling and simulation techniques in preclinical and clinical drug development, with specific focus on therapeutic proteins. His research has attracted more than $6 million in extramural funding as principal and co-investigator and has resulted in over 100 scientific papers and book chapters, two textbooks, 130 abstracts, and over 100 invited scientific presentations to national and international audiences.

Dr. Meibohm is a Fellow of the American Association of Pharmaceutical Scientists (AAPS) and American College of Clinical Pharmacology (ACCP), and recipient of the 2000 AAPS ‘New Investigator Award in PK, PD and Drug Metabolism.’ He chaired the 2010 ‘Pharmacokinetics, Pharmacodynamics and Drug Metabolism’ (PPDM) section of AAPS and recently began a five year term on ACCP’s governing Board of Regents. Dr. Meibohm also serves as associate editor for the AAPS Journal, as section editor for ‘Pharmacokinetics and Pharmacodynamics’ for the Journal of Clinical Pharmacology, and is a member of the editorial boards for the Journal of Pediatric Pharmacology and Therapeutics, the Journal of Pharmacokinetics and Pharmacodynamics, Les Annales Pharmaceutiques Françaises and Die Pharmazie.

FACULTY

Academic Promotion and Tenure 2012

Michelle Farland, PharmD, BCPS, CDE was promoted to associate professor of Clinical Pharmacy. Dr. Farland received a Doctor of Pharmacy degree from the University of Pittsburgh School of Pharmacy in 2005. She completed a pharmacy practice residency at Shands Jacksonville Medical Center in Jacksonville, FL and a specialty residency in ambulatory care/primary care at the Virginia Commonwealth University Medical College of Virginia Hospitals in Richmond, VA. Dr. Farland joined the faculty of the University of Tennessee Health Science Center College of Pharmacy, Knoxville Campus in 2007. Her clinical practice is in an academic primary care/internal medicine clinic. Her clinical research focuses on pharmacist impact on patient outcomes for chronic disease states in interdisciplinary care settings. She currently serves as the director of the University of Tennessee Pharmacist Practice Based Research Network (UT Pharm Net). Dr. Farland has been a course director for two required courses (Therapeutics 6 and Medication Therapy Management), and she directs an Ambulatory Care elective course. Dr. Farland also serves as the campus advisor for Phi Lambda Sigma, who recognized her in 2011 as the Alumna of the Year. She is also the 2012 recipient of the American College of Clinical Pharmacy New Educator award.
Promotion and Tenure – continued

**Andrea S. Franks, PharmD, BCPS** was tenured as an associate professor of Clinical Pharmacy. She is also an associate professor of Family Medicine at the University of Tennessee Graduate School of Medicine. Dr. Franks began her faculty career with the College of Pharmacy in Memphis, and transferred to East Tennessee to help establish the Knoxville campus in 2007. Her clinical practice, teaching, and research site is in Family Medicine at the University of Tennessee Medical Center (UTMC) in Knoxville. She participates in college and campus committees and working groups responsible for dual-campus educational programs and curriculum. In addition to her clinical practice, Dr. Franks teaches throughout the PharmD curriculum, and serves as a preceptor for UTMC pharmacy residency programs. Dr. Franks has received several teaching awards including the UTHSC Student Government Association Executive Council Excellence in Teaching Award (2007, 2012) and the University of Tennessee Alumni Association Outstanding Teacher Award (2008). She has presented local, regional, and national presentations regarding teaching and learning.

**Amanda Howard-Thompson, PharmD, BCPS** was promoted to associate professor of Clinical Pharmacy and Family Medicine at the University of Tennessee Health Science Center. After graduating from the University of Tennessee College of Pharmacy, Dr. Howard-Thompson completed a clinical pharmacy residency in Pediatric Pharmacotherapy at LeBonheur Children’s Medical Center and Internal Medicine at Methodist University Hospital in Memphis, and then joined the faculty in 2007. Her clinical practice and teaching site is the UT Family Practice Center in Memphis. Dr. Howard-Thompson currently coordinates Self Care and Non-Prescription Drugs and an Ambulatory Care elective course. In addition, she is an instructor in Therapeutics I, V, and VI. Her practice and research interests include general medicine, diabetes, tobacco cessation, asthma, anticoagulation, and women’s health.

**Michio Kurosu, PhD** was tenured as an associate professor of Pharmaceutical Sciences. Dr. Kurosu joined the faculty at Colorado State University in 2006. There he held a joint appointment in the Department of Chemistry, and he was promoted to associate professor 2009. Dr. Kurosu joined the University of Tennessee College of Pharmacy as an associate professor in 2011. His laboratory is known for the application of chemical principles to develop novel chemotherapy for respiratory and lung diseases. He has studied bacterial infections caused by Gram-positive bacteria including Mycobacterium tuberculosis. He has a long-term interest in development of new antibacterial agents targeting novel or unexploited drug targets. Dr. Kurosu has served on a NIH peer reviewer committees as well as an ad hoc reviewer since 2009.
Promotion and Tenure – continued

Tao Lowe, PhD was tenured as an associate professor of Pharmaceutical Sciences. She is also an associate professor of Biomedical Engineering at University of Tennessee Health Science Center. Previously, she was an associate professor of Pharmaceutical Sciences at Thomas Jefferson University in Philadelphia, PA. Dr. Lowe was also an assistant professor of Surgery, Bioengineering, and Materials Science and Engineering, and co-director of the Integrated Graduate Degree Molecular Toxicology Program at Pennsylvania State University. She received a PhD with an Eximia Cum Laude from the University of Helsinki, Finland in 1998. She conducted her two year postdoctoral research in the Chemical Engineering Department at University of Wisconsin, Madison. Dr. Lowe has published more than two dozen peer-reviewed papers on biomaterials, macromolecules, biomacromolecules, and tissue engineering. She has given more than 130 presentations and more than 50 invited lectures. She has received funding support from the NIH, DOD, Coulter Foundation, and Juvenile Diabetes Research Foundation.

McFarland ACCP Ambulatory Care PRN Chair-Elect

M. Shawn McFarland, PharmD, BCPS, BC-ADM is the new chair-elect for the American College of Clinical Pharmacy (ACCP) Ambulatory Care PRN (practice research network). The ACCP Ambulatory Care PRN currently has approximately 1400 members. The chair-elect oversees the operations of the PRN as a whole for the first year in conjunction with the chair. Specifically, the chair-elect will be in charge of coordinating the PRN’s educational session at the ACCP Annual Meeting. In addition, the chair-elect will coordinate any additional educational activities during the year. The chair-elect will then move into the chair position after one year. Dr. McFarland will begin his term at the ACCP meeting this fall. “I am extremely excited to be the incoming chair-elect for the Ambulatory Care PRN,” stated McFarland. “With the implementation of the Patient Centered Medical Home Model, ambulatory care pharmacists hold a unique opportunity to bring our expertise in medication therapy management to the forefront of patient care. As one of the largest PRNs, we look forward to championing that effort together within the general membership of ACCP.”

Dr. McFarland is a native of Monteagle. He graduated from Middle Tennessee State University with a Bachelor in Science in 1996. Dr. McFarland graduated Magna Cum Laude from the University of Tennessee College of Pharmacy in 2000. He then completed an ambulatory care/community pharmacy residency with the University of Tennessee in 2001. Dr. McFarland created the anticoagulation clinic and diabetes care clinic at the Murfreesboro Medical Clinic and practiced at the clinic from 2001-2008. He now is a clinical pharmacy specialist in primary care at the Alvin C. York VA Medical Center in Murfreesboro. He is an associate professor with the University of Tennessee College of Pharmacy and has precepted hundreds of student pharmacists since graduation.
**WOOD NOMINATED FOR 2013 ACCP REGENT POSITION**

**Dr. Chris Wood** has been nominated for a 2013 American College of Clinical Pharmacy (ACCP) Regent position. The ACCP Board of Regents consists of 11 elected members, five officers and six Regents. Four ACCP members are nominated for Regent each year, of which two are elected for three year terms. The Board of Regents is responsible for setting policies and procedures, managing fiduciary issues, and developing and monitoring of the strategic plan. Regents also serve as liaisons to committees and practice and research networks (PRNs) and other duties as assigned by the President. Board of Regents members are expected to provide leadership for ACCP’s programs, initiatives, policies, and mission. “I am fortunate to be nominated for Regent this year,” said Wood. Dr. Wood is a 1996 graduate of the UT College of Pharmacy. He completed a critical care residency and fellowship at UT, and has been on faculty since 1999. He is currently an associate professor of Clinical Pharmacy and a Board Certified Pharmacotherapy Specialist with Added Qualifications in Infectious Diseases. Dr. Wood practices in trauma critical care at the Regional Medical Center at Memphis and also serves as the residency program director for the PGY2 critical care residency. He has been a member of ACCP since 1996 and was elected as a Fellow (FCCP) in 2007. He has also been an ACCP committee member 8 times, a committee chair, and a Frontiers Fund captain twice. Dr. Wood was elected as the president of the Mid-South College of Clinical Pharmacy in 2004 and the chair of the Critical Care PRN in 2007.

**CLINICAL PHARMACY WELCOMES LESLIE HAMILTON**

**Leslie A. Hamilton, PharmD, BCPS,** joined the University of Tennessee College of Pharmacy as an assistant professor of Clinical Pharmacy on the Knoxville Campus. She practices in neurology and critical care at UT Medical Center. Prior to joining UT, Dr. Hamilton served on faculty at Auburn University for three years and practiced in pulmonology and critical care. Her interests are critical care, nutrition, and infectious disease. Dr. Hamilton graduated with a BA in English Literature from the University of Tennessee in 2003 and completed a Doctor of Pharmacy at the University of Tennessee Health Science Center in 2007. She completed a PGY1 residency at Moses H. Cone Hospital in Greensboro, NC, and a PGY2 residency in critical care/nutrition support at the University of Tennessee/Regional Medical Center in Memphis. Dr. Hamilton is originally from Oak Ridge and is glad to be back in the area. She enjoys traveling and cooking in her spare time.
Haidar appointed to Board of Pharmacy Specialties Pediatrics Taskforce

Cyrie E. Haidar, BS Pharm, PharmD, BCPS, BCOP was recently appointed to the Board of Pharmacy Specialties (BPS) Pediatrics Taskforce. The taskforce conducted a study to help define the minimum expectations of a board certified practitioner along with the knowledge, task and activities a pediatric pharmacist should be able to complete. According to BPS Executive Director, William M. Ellis, “BPS received almost 300 nominations to serve on the Pediatric Pharmacy and Critical Care Pharmacy Practice Analysis Taskforces. The conduct of this and other role delineation studies demonstrates the active commitment of BPS to recognize pharmacy specialties and certify pharmacists' knowledge and skill at the advanced practice level.” Dr. Haidar is a clinical pharmacy specialist in pediatric oncology at St. Jude Children’s Research Hospital in Memphis and an assistant professor of Clinical Pharmacy at the University of Tennessee College of Pharmacy. Dr. Haidar received her BSPharm and PharmD degrees at the Lebanese American University in Byblos, Lebanon. Following graduation, she completed a PGY1 residency at Hackensack University Medical Center in Hackensack, New Jersey. This experience was followed in 2004-2005 by completion of a PGY-2 residency in pediatric oncology at St Jude. She primarily practices in the ambulatory care setting with the Solid Tumor and Neuro-Oncology teams and has precepted more than 40 student pharmacists and 10 pediatric oncology pharmacy residents at St. Jude. Her main areas of interest are solid tumor malignancies, brain tumors and pharmacogenetics. She assumes the position of clinical coordinator for Pharmacogenetics at St. Jude in September 2012. Dr. Haidar has extensive experience in collaboration with professional societies, including Hematology Oncology Pharmacists’ Association and Pediatric Pharmacy Advocacy Group.

Former HOPR Faculty Welcomed in Department of Clinical Pharmacy

As of July, all Health Outcomes and Policy (HOPR) faculty members were transitioned to the Department of Clinical Pharmacy (DCP). Since HOPR and DCP faculty share common research interests, this move will offer opportunities and open new doors for collaborative research. Although faculty have worked together on numerous occasions in the past, they are excited and confident that the physical move of HOPR faculty into the DCP will facilitate more effective collaborative research. The group of faculty members joining the DCP are Drs. Lawrence “L.B.” Brown, Brandi Franklin, Song Hee Hong, Shelley White-Means, and Junling Wang.

Dr. Lawrence “LB” Brown is a tenured associate professor and director of graduate studies in Health Outcomes and Policy Research. He completed his Doctor of Pharmacy degree at the University of the Pacific and his PhD in Social and Administrative Pharmacy at the University of Minnesota. His main research interests are economic and clinical outcomes of pharmacists-provided medication therapy management (MTM) services, and pharmacists’ expanded patient care roles within the health care system.
Dr. Brandi Franklin is an assistant professor and co-director and instructor for the introductory HOPR policy course. Her primary areas of research include diabetes burden in youth and adults, outcomes of disparate food access, community and faith-based health promotion, and childhood obesity. “In terms of the change to Clinical Pharmacy, I’m very excited about bringing HOPR’s strengths in pharmacoconomics, policy, and outcomes research to Clinical Pharmacy,” stated Franklin. “We have great potential to embark on translational research through collaboration.”

Dr. Song Hong is an associate professor and faculty member for the graduate program in Health Outcomes and Policy Research. He obtained a PhD in pharmacy administration from University of Texas at Austin and MA in economics from Virginia Commonwealth University. His research interests are in outcome evaluation of pharmaceutical products and services, pharmacoepidemiology, pharmacy benefit designs and drug pricing. “As DCP increasingly emphasizes translational clinical practice for innovative clinical services and practice models, there seem ample opportunities [for collaboration]” Hong said.

Dr. Junling Wang is an associate professor and received a PhD in Pharmaceutical Health Services Research from the University of Maryland in 2005 focusing on the application of quantitative analysis in outcomes research and pharmacoconomics. “I am very excited about HOPR faculty members moving to the DCP. The research interests of HOPR faculty members are very well aligned with faculty colleagues at the DCP and this move will better facilitate the collaboration between HOPR faculty and other DCP faculty members,” explained Wang.

Dr. Shelley White-Means is a professor of Pharmaceutical Sciences and executive director of Consortium on Health Education, Economic Empowerment and Research (CHEER). Her research specialty and focus are in health disparities, economics of aging, the cost of caregiving, economics, minority health and health care utilization.
FACULTY PUBLICATIONS

FACULTY PRESENTATIONS

Shannon Finks, PharmD, BCPS, professor of Clinical Pharmacy will deliver the Cardiology presentation for ACCP’s “Last-Chance Certification Review Webinars” as part of the pharmacotherapy review on Wednesday, September 5. You may register for the webinar at: http://www.accp.com/meetings/w-lc12/

STUDENTS, GRADUATE STUDENTS AND RESIDENTS

SNPhA Chapter Named Top 3 Nationally – Members, Advisor Recognized

The University of Tennessee Chapter of the Student National Pharmaceutical Association (SNPhA) was ranked as one of the top three chapters in the nation. Additionally, the chapter was recognized for completing community service events in all six initiatives: 1) Keep Sake - an initiative promoting awareness for Chronic Kidney Disease, 2) Fight Diabetes, 3) Power to End Stroke, 4) Operation Immunization, 5) Legislative/Voting/Immigration and 6) HIV/AIDS: Remember the Ribbon. The chapter was also one of only a few schools to successfully complete the new initiative presented by Pfizer, Beat the Pack, where members taught a month-long smoking cessation module to the HIV-positive community at Friends for Life. About 30 student pharmacists attended the 2012 SNPhA National Convention in Las Vegas, Nevada on July 20-23.

Student pharmacist, Alfton Dyson, was appointed as Region II Facilitator, and will hold responsibilities that focus on active communication with chapters in the region to facilitate transfer of information to the national executive board.

Merry Daniel, third year student pharmacist and SNPhA vice-president in Knoxville, was awarded a $2,000 scholarship from Rite-Aid. This scholarship is awarded to student pharmacists committed to promoting the profession of pharmacy and have demonstrated leadership qualities. Merry states, “I believe I received the scholarship because I took on several leadership positions in SNPhA, and I have done most of the MTM in the Rite-Aid store where I work.”

Third year student pharmacist Jenny Luo was elected as National Corresponding Secretary. She holds over seven years experience with conference planning and has held student leadership positions on both local and national stages. During her tenure as corresponding secretary, she hopes to focus on encouraging new members to participate in the resolutions process and streamline SNPhA business sessions.

Mr. Bobby Thomas, one of our current SNPhA advisors, was recognized by SNPhA’s executive director as an “Excellent Advisor” for 2011-2012.

Two teams, consisting of third year student pharmacists Merry Daniel, Sarah Jackson Zach Thomas and Frank Yu, competed in the National Clinical Skills Competition. President of UT’s chapter, Keysha Ray, says “Congratulations to our members for all their hard work, dedication and commitment to SNPhA!”
STUDENTS, GRADUATE STUDENTS AND RESIDENTS

Thomson Awarded Travelship to Attend 2012 AAPS Annual Meeting

Margaret Thomson, PharmD has been awarded a travelship from the Clinical Pharmacology and Translational Research section of American Association of Pharmaceutical Scientists (AAPS) to attend the 2012 AAPS Annual Meeting and Exposition at McCormick Place in Chicago, IL. There she will present her poster entitled “Age-Associated Expression of OATP1B1 and OATP1B3 in Human Pediatric Liver.” This poster represents a portion of Dr. Thomson’s work toward a PhD in Pharmaceutical Sciences. The Clinical Pharmacology and Translation Research (CPTR) section awards up to seven travelships to attend the Annual Meeting. Competition is rather robust as students, postdoctoral fellows, and junior faculty are eligible for the awards. Selection for the award is based in part on the strength of the science shown in the abstract. The award winners will be recognized by the CPTR section during the 2012 AAPS Annual Meeting and Exposition. “It is an honor to receive this award so that I can share my research at the Annual Meeting,” said Thomson. “This will give me the opportunity to discuss my work with other scientists in the fields of developmental pharmacology and drug transport and gain insight as to other paths to pursue for this project.” Dr. Thomson graduated from the University of Tennessee College of Pharmacy in 2007 and is currently a graduate student in the Department of Pharmaceutical Sciences where she is advised by Dr. Bernd Meibohm.

Update on PharmD Class of 2012 Employment

Over 97% of the Class of 2012 is employed. As reported in July 2012, 85% of the 2012 graduates had specific plans at the time of graduation: 45% in chain community pharmacy, 28% in residency training, 5% in institutional pharmacy, 3% as graduate students/fellows, 2% in independent community pharmacy and 2% to pursue positions in other areas. Congratulations Class of 2012!
STUDENTS, GRADUATE STUDENTS AND RESIDENTS

University of Tennessee Post-Doctoral Resident and Fellow Symposium

The focus of the annual Post-Doctoral Residency Symposium held on August 10 in Memphis and Knoxville was Education and Teaching Effectiveness. Topics presented included creating learning objectives and exam questions, creating a syllabus, preparing class materials, teaching methodologies, and teaching credentials. Approximately 60 PGY1 and PGY2 residents across the state participated.

PharmD Student Rotation/Residency Showcase

These showcases are a time for student pharmacists to meet potential preceptors for rotations and residency programs. It is a unique experience for rising P3s to talk with preceptors to learn more about rotation sites they may be interested in, as well as a great opportunity for rising P4s to learn about available residency programs. The showcases were held on August 15 in Knoxville and on August 23 in Memphis.
STUDENTS, GRADUATE STUDENTS AND RESIDENTS

Class of 2016 – Demographics

The College of Pharmacy welcomed 167 student pharmacists to the P1 Class of 2016 on August 4. The majority (60.5%) are female, with 112 (67.1%) white, 27 (16.2%) black/African-American, 19 (11.4%) Asian, 5 (3.0%) Vietnamese, 3 (1.8%) Hispanic, and 1 (0.6%) Native-American student pharmacists. Tennessee residents comprise 78.4% of the class. In-state residents hail from west (43.5%), middle (36.6%), and east Tennessee (19.8%). Our non-Tennesseans are from Mississippi (9); Arkansas (6); Texas (4); Alabama and North Carolina (3 each); Georgia, Missouri and Louisiana (2 each); and Kentucky (1). The average overall GPA is 3.45 and 137 (82%) have at least a Bachelor’s degree. The average PCAT composite score was at the 70th percentile. The numbers of student pharmacists attending in-state undergraduate schools are noted below:

3 + 1 Degree with Maryville College Approved

Maryville College recently approved an articulation agreement with the University of Tennessee College of Pharmacy for a dual-degree in Biopharmaceutical Sciences (BA) from Maryville College and a PharmD from UT College of Pharmacy. Students who complete the program will attain a bachelor’s degree and PharmD degree in seven years, instead of the traditional eight years. UT College of Pharmacy has been continually impressed with the high quality of students and the rigor of academic programs from Maryville College. “We are excited to enter into this agreement and look forward to working together to send high-quality applicants from Maryville College your way,” said Dr. Jerilyn Swann, Chair of the Natural Science Division at Maryville College.
Who: American Pharmacists Association-Academy of Student Pharmacists (APhA-ASP) at the University of Tennessee, College of Pharmacy

What: 18th Annual Emmett Manley “Prescription” Golf Tournament

When: Wednesday September 19th, 2012

Where: Mirimichi Golf Course

Why: To raise the funds required to assist our organization in continuing to serve the community throughout the upcoming year.

How you can help:

- **Student Sponsorship (Mulligan Level):** $100. If you are unable to play, this gives you the opportunity to sponsor a student!
- **Play in the tournament:** $150. Covers greens fees and all tournament events, including dinner and games.
- **Sponsor a hole (Par Level):** $150. Special signage will be placed on a designated tee-box stating your personal or company’s name, address, phone number, logo, etc.
- **Play in the tournament & sponsor a contest hole (Birdie Level):** $325. Includes FREE entry fee for one golfer ($150 value) and special signage at designated contest hole.
- **Corporate Sponsorship (Eagle Level):** $650. Includes FREE entry fee for two golfers ($300 value), special signage at the first hole, and recognition during the awards ceremony.
- **Grand Corporate Sponsorship (Double Eagle Level):** $1100. Includes FREE entry fee for four golfers ($500 value), a sign on a hole-in-one tee box, an opportunity to set-up an event station on that hole, and recognition during the awards ceremony.
- **Other Donations:** Door prizes or items for goodie bags which are distributed to all participants.

We raise much needed funding while you or your company receives advertising to a large number of people at a reasonable rate. Additionally, your donation is tax deductible because we are a charitable organization. **If you or your company cannot sponsor a hole, green, or tee, we would greatly appreciate any support you can give (e.g. door prizes, items for goodie bags, which are given to all participants, sponsorship of a student’s greens fee, etc.).**

*Contest holes are those at our longest drive, most efficient drive, closest to the pin, and putting contests.*
