Per your request, we are furnishing the following information with respect to the above insured in accordance with his/her specific written authorization. Such information is limited only to claims reported to SVMIC. Please note that it is the policy of SVMIC to furnish only certain types of claims information. Accordingly, this report provides information only with respect to (a) professional liability claims or lawsuits that were concluded with a loss payment within the last 4 years, (b) lawsuits concluded within the last 4 years, and/or (c) pending lawsuits.

SVMIC's reporting of any claim against the insured does not imply any wrongdoing on the part of that insured. Allegations made against the insured often have little resemblance to the facts ultimately developed during the litigation or claim handling process. Allegations can change and are frequently abandoned. This report is being provided as a courtesy. Further distribution of this report without the express written consent of the insured is prohibited.

There is no record of any claims reported to SVMIC.

We have made a diligent and good faith effort to compile the information set out in this claim history report. This does not eliminate the possibility that errors have inadvertently been made. Therefore, no representations of any kind are made by SVMIC, and the Company specifically disclaims any liability that may occur as a result of reliance on the information contained in this report.
