

**Memorandum of Agreement**  
**Program Continuation**  
**University of Tennessee, Knoxville**  
**and**  
**University of Tennessee Health Science Center**  
**Maintenance of 3+1 Programs**

The University of Tennessee, Knoxville (UT) and the University of Tennessee Health Science Center (UTHSC) located in Memphis, currently are accredited as one institution. The UTHSC has applied for separate accreditation. This agreement covers five 3+1 programs that currently exist between the two campuses.

UT and UTHSC agree to continue to collaborate with the following programs:

- Food Science and Technology Major, Pre-Pharmacy 3+1 Concentration
- Food Science and Technology Major, Pre-Professional 3+1 Concentration
- Pre-Professional Programs Major– Pre-Dentistry Concentration
- Pre-Professional Programs Major– Pre-Medicine Concentration
- Pre-Professional Programs Major– Pre-Pharmacy Concentration

Students complete their general education program and other coursework leading to a baccalaureate degree in either Food Science and Technology or Pre-Professional Program, during three years of enrollment on the UT campus. Upon successful application to and completion of the first year of professional studies at the UTHSC in one of the UTHSC programs, the student requests a transcript of completed course work from the first year (30 hours) be sent to the Office of the Registrar at the UT. The transcript will be reviewed and applied to the student's record. Once the student applies for graduation, the appropriate UT degree shall be awarded.

Each campus will independently of each other make necessary revisions to their portion of the programs without impinging on the other's right to do so. UT will ensure that the programs will continue to include the necessary pre-requisite courses to the UTHSC programs.

This agreement covers solely the five listed programs. Any future 3+1 programs will be established under a new collaborative academic arrangement.

This MOA of program continuation will be reviewed five years from the official receipt of separate accreditation for the UTHSC campus (anticipated with the December 2015 meeting of the SACSCOC Board of Directors).
