The UTHSC Instructional Technology Services team facilitates the use of instructional resources such as multimedia classrooms, computer presentations, video conferencing, pod casting, webcasting and polling software. In addition to providing video conferencing and distance education support, the team is also responsible for monitoring the classrooms on an hourly/daily basis to resolve any problems that might arise and insure that classroom equipment is in proper working order. Contact us if you need any of the following:

- Classroom Audio Visual Support
- Digital recording and webcasting for classes and special events
- Videoconferencing support
- Conference room design and installation
- Technology evaluation
- Support for Mediasite live broadcasting and recording
- Video capabilities on Tandberg, Cisco Jabber and Web EX
- Customized multimedia classroom design assistance

To submit a request for the Instructional Technology Services Team, contact the UTHSC ITS Help Desk at 901-448-2222 or helpdesk@uthsc.edu.
