# **GIRLS** **FRIENDSHIP** **PROJECT**

**Autism Social Development Lab**

**University of Tennessee Health Science Center**

**Lab Location: 435 South Stadium Hall, Knoxville, TN**

Hello! Are you or do you know a female from the ages of 8-12 or 18-24 with Autism Spectrum Disorder? We would love to learn how you make or maintain friendships in order to understand how a girl with ASD may experience friendship versus how a boy with ASD may experience friendship. If this is something that interests you, please make contact with us!
