

Healthcare Principles in Practice

*A Faculty & Resident Development Series focused on
Quality Improvement, Patient Safety & Well-Being*

Wellness & Diversity

Diversity in GME

William McDade, MD PhD

Chief for Diversity, Equity & Inclusion - ACGME

After this activity, learners should be able to:

- Make changes to their practice setting to expand their workforce diversity and develop inclusive learning environments.
- Describe the link between workforce diversity and eliminating health disparities.
- Discuss the significance of racial & ethnic concordance in health care interactions between physicians & patients.
- Describe the relationship between microaggressions, well-being & performance in GME.
- Create learning environments that promote belongingness for all learners and mitigate harmful bias and discriminatory behaviors.

Tuesday, April 13, 2021

7:00-8:00am
