

Ashton Ballinger, MD

I grew up in the tiny town of Stewardson in south central Illinois. I finished my Bachelor's degree in Clinical Laboratory Science at the University of Illinois in Springfield and worked for 4 years as a Medical Technologist at Springfield Clinic before returning to school. I completed medical school at the University of Illinois College of Medicine at Rockford where I received supplemental education about providing care to the rural underserved population. In my free time, I enjoy singing, reading, playing board games, playing various sports, baking, and spending time with friends and family. I am excited to start training with University of Tennessee College of Medicine-Chattanooga!
