

## Alison Hollis, DO

---

As the daughter of two retired Navy parents, I was born and raised along the Gulf Coast. My hometown is Destin, FL. My twin sister and I grew up spending time playing sports, deep-sea fishing, and being on the water. I attended The University of Alabama in Tuscaloosa, AL where I met my husband Trent. I majored in both Biology and Humanities in Medicine for my undergraduate studies. I received my medical degree from the Alabama College of Osteopathic Medicine. In my free time I love to cook, spend time with family and friends, and enjoy a glass or two of red wine. We are so excited to live in Chattanooga and enjoy the outdoor activities and beautiful mountains.
