Regional One Health

Requesting Access to ROH EMR

Dear New Residents,

We understand that you are anxious to complete all of the required tasks outlined by each hospital at which you will rotate. For Regional One Health, we ask that only those who will rotate through our hospital within in the first 90 days (July 1, 2019 through October, 2019) request access to the EMR. We will begin to grant access to the EMR the week prior to orientation, but not before. For training and access, follow the steps in these links on the registration website

- Access to Computer Systems 2019
- ULearn access 2019
- WBTs _ Provider

to take the necessary EMR training and to request access to the EMR. Again, please do not request access prior to the week of June 17, 2019. Our IT Onboarding team will be available at orientation to assist with access.

You may complete your badge request and forward it to ROH Security as outlined in the instructions. Pictures for the badges will be taken at registration and badges will be available to you in the GME office shortly thereafter.

Regards,

Sheri Wahl Yendrek
Director, Medical Staff Services and GME Liaison
