

June 2026

Dear Incoming Residents and Fellows,

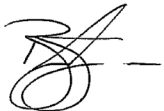

Welcome to Regional One Health! On behalf of everyone at the health system, I want to welcome you to the organization and thank you for choosing to continue your professional journey with us. I am pleased you will be spending time in partnership with us over the next year as we all work together to provide compassionate care and exceptional services to our patients.

As you know, we cannot do this work alone. Our partnership with the University of Tennessee Health Science Center is essential to the care we provide to our patients and this community. You play a vital role in this work, and I know you will bring your valuable expertise and skills to the table every day for our patients.

Regional One Health is unique in our community. Here, you will find the only Level 1 Trauma Center; the only ABA and ACS verified Burn Center; and high-risk obstetrics and neonatal intensive care providing specialized services to new parents and premature, tiny babies. We also offer specialized services in oncology, gastroenterology, vascular care and many other specialties. Whether you are working in one of these areas or in an area supporting the general health and well-being of our community, know that your work here will make a difference.

It is my hope and belief that you will find Regional One Health to be a welcoming environment. We value our partnership with you and are glad you are with us.

Sincerely,

Reginald W. Coopwood, MD  
President and CEO
