

Convert clicker-ready slides into Poll Everywhere activities

Before starting, make sure you have installed and are logged into the Poll Everywhere for Windows PowerPoint app. Click [here](#) to get the app if you don't already have it.

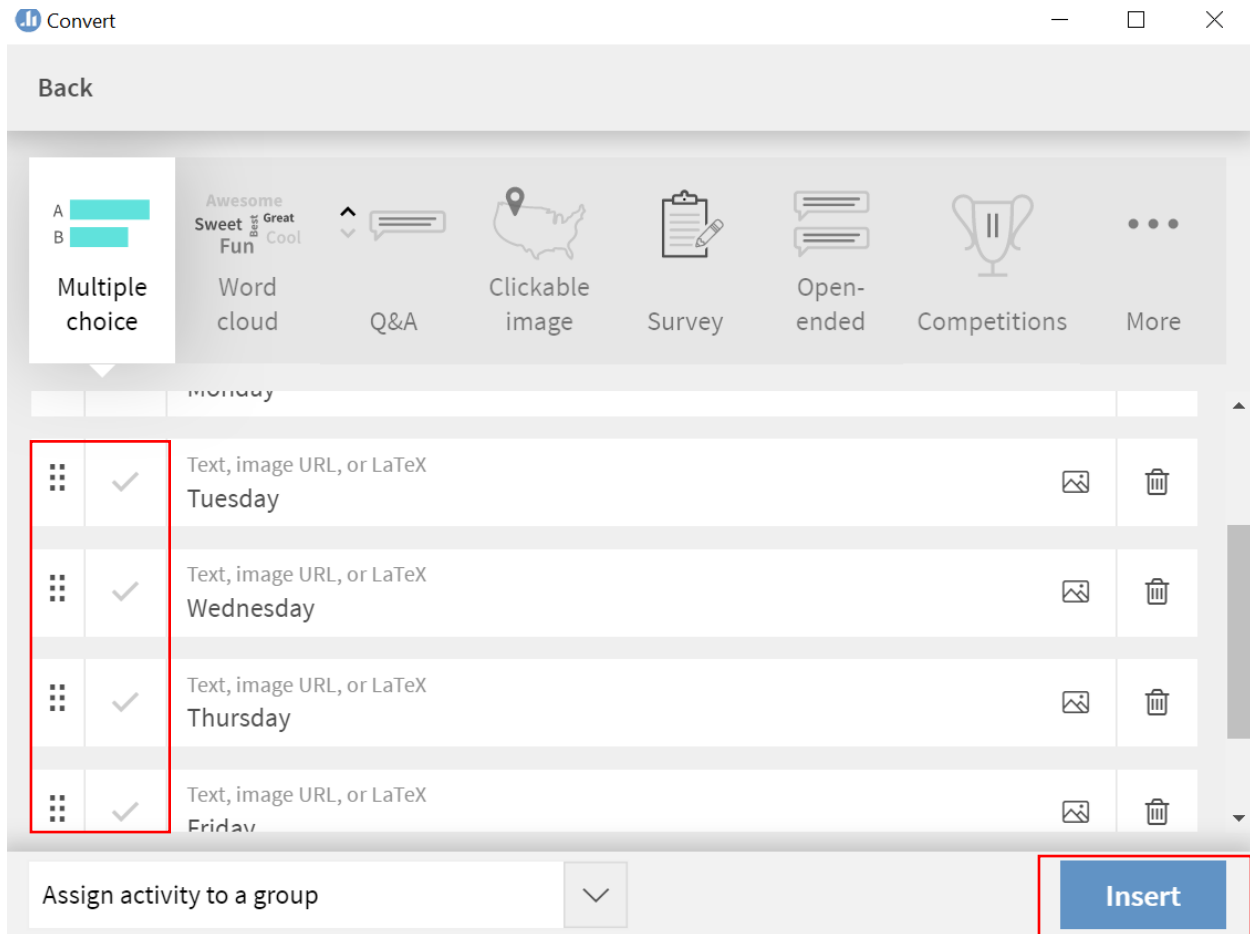

Step 1: Open a pre-existing TurningPoint presentation and select the slide that you want to convert.

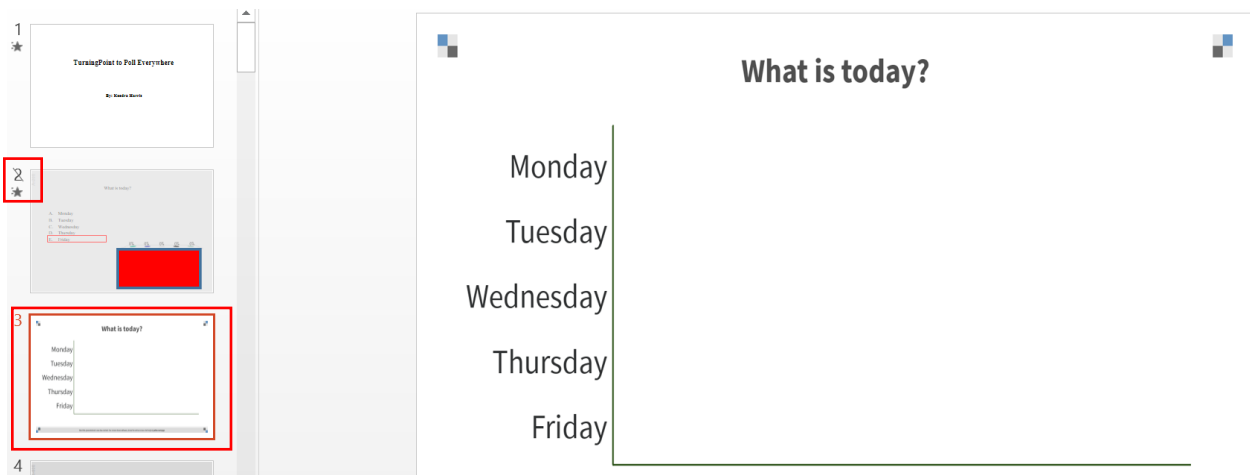

Step 2: Click the Poll Everywhere tab in the taskbar then select the Convert to poll button. You will need to go through and convert each slide one at a time. This will allow you to make any necessary edits or changes.

Step 3: In the Convert to poll window, make any necessary changes and mark a correct answer if desired, then click the Insert button.

The existing PowerPoint slide is hidden and a new activity slide appears in its place.

After you have converted all the slides to Poll Everywhere activities, your slide deck is ready for presentation.

Helpful tip: When you convert a clicker-ready slide into a Poll Everywhere activity and insert it into your presentation, the activity is also added to your Poll Everywhere profile. You'll find it in the Activity list on your My Polls page.
