

## How to Publish a Presenter Quiz to Blackboard using SCORM

---

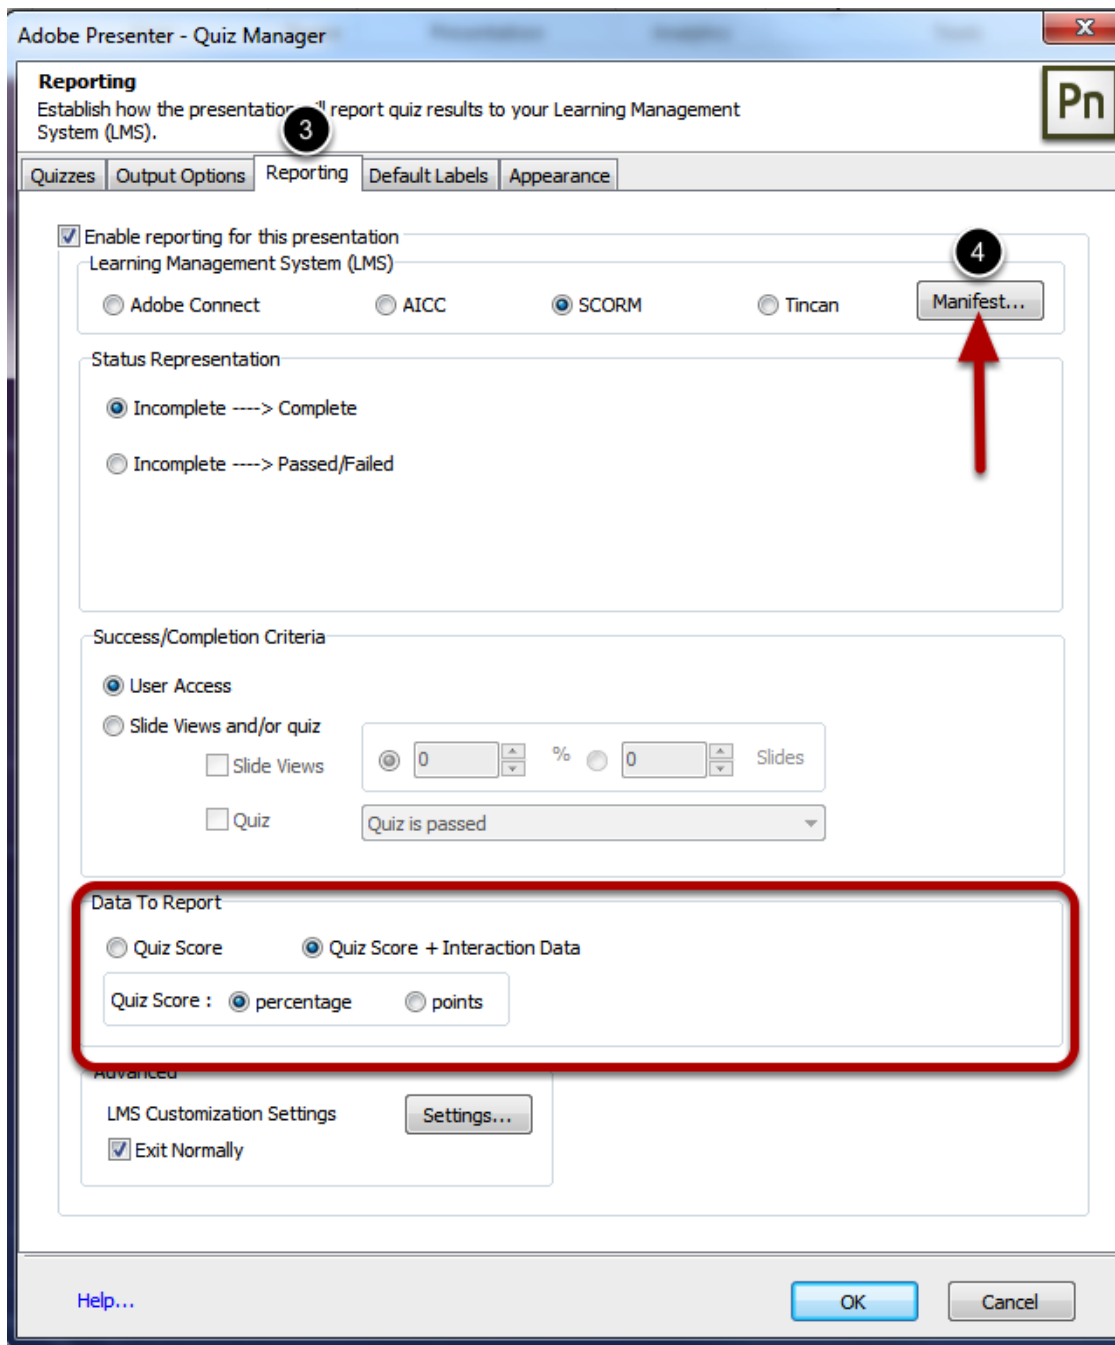

We recommend you create a test quiz first to familiarize yourself and your students with the quiz's functionality.

1. After creating your Presenter course with an integrated quiz, select **Manage** on the Adobe Presenter tab. The Quiz Manager dialog will open.

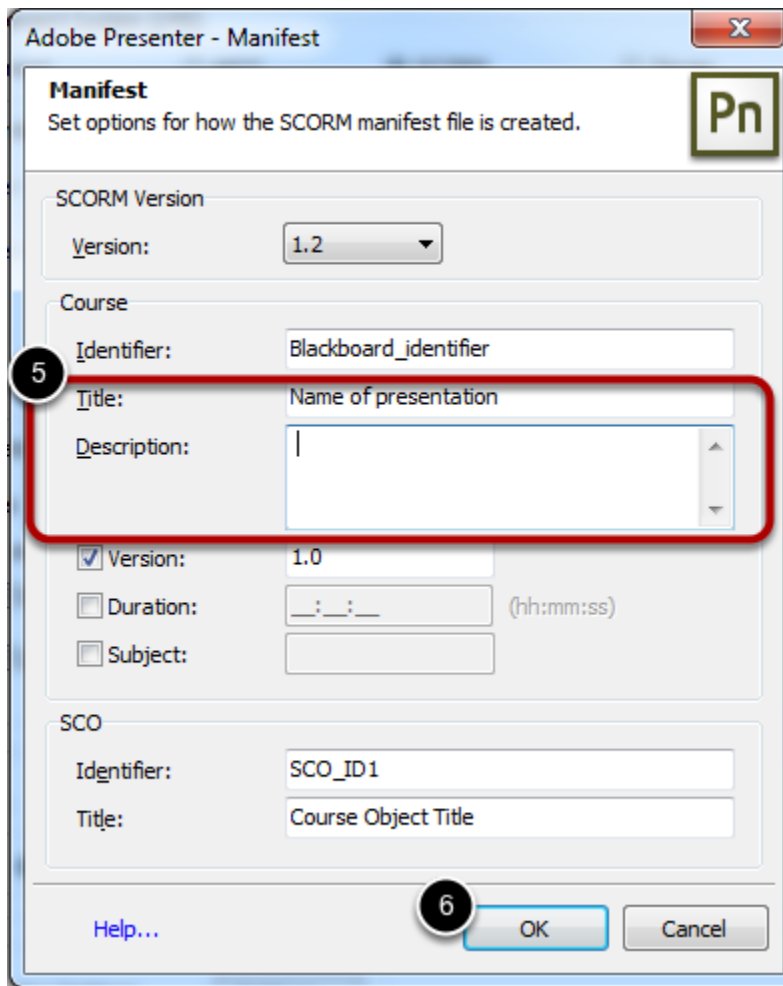

2. Select the **Reporting** tab.

3. Set the properties on the reporting tab as illustrated above.

4. After setting the properties, select **Manifest**.

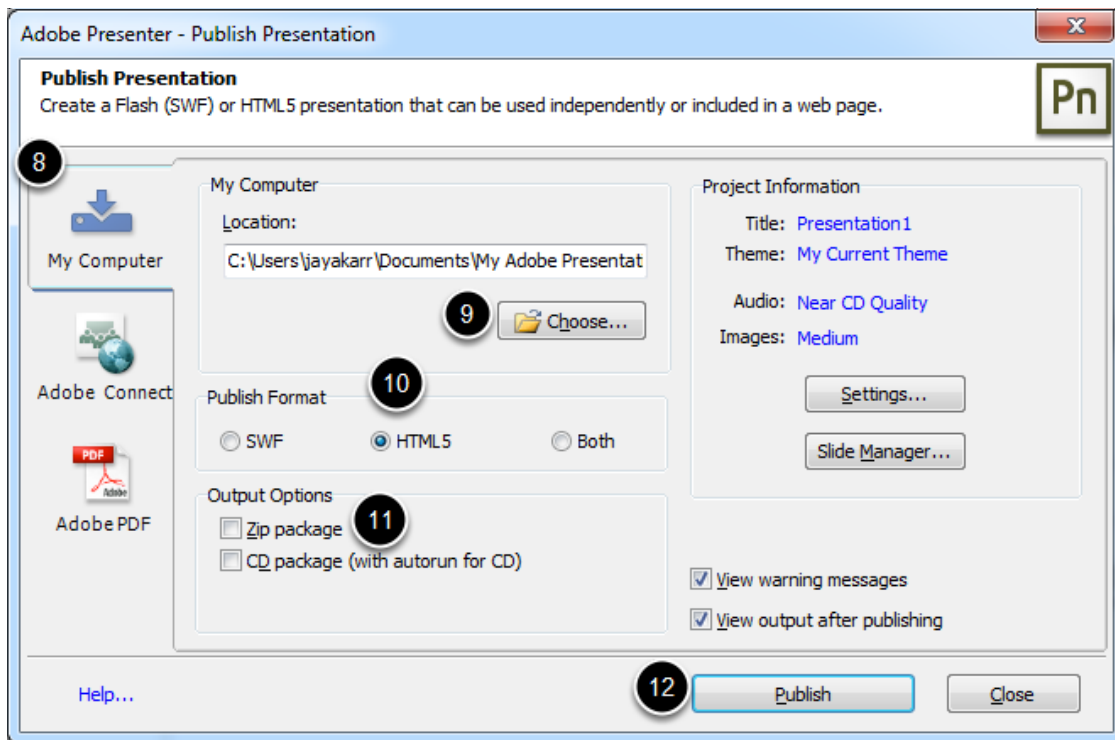

5. In the Manifest settings, fill out the Course fields **Title and Description only**. It's helpful to use a numbering convention like unit 1 or chapter 1 and then lesson 1, 2, 3 etc. This will help you keep track of which lesson you are uploading and working with. Do not change the SCO Identifier or SCO Title.

6. Click **OK** when finished to close the Manifest settings box. Click OK again to close the Quiz Manager box.

## Saving Your Presenter Course as a Zip Package for Blackboard

7. Click **Publish** on the Adobe Presenter tab.

8. First, ensure you are on the **My Computer** tab.

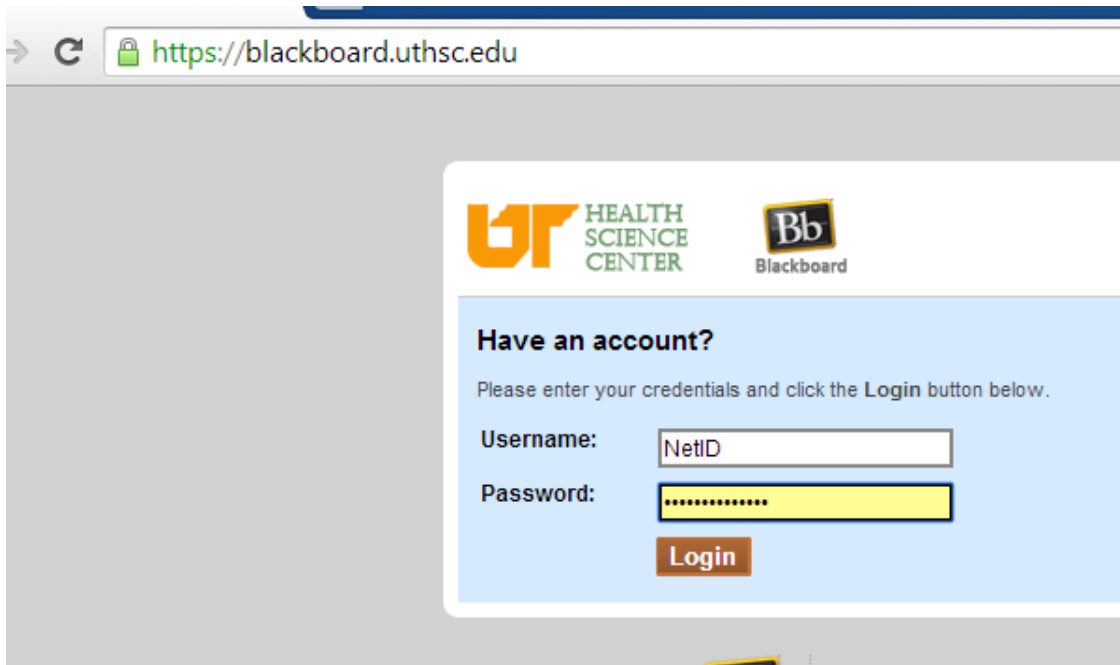

9. Choose where to save the zip package. Save it someplace where you can access it quickly later.

10. In the Publish Format section, select **HTML5**.

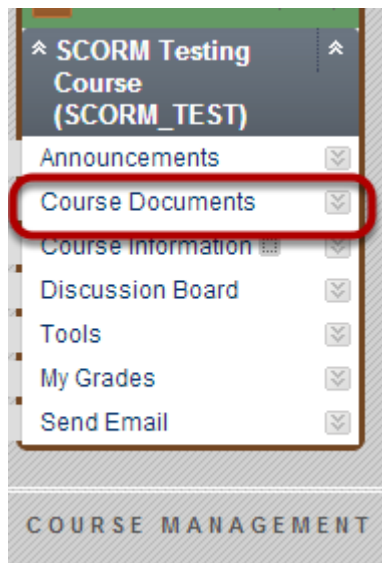

11. In the Output Options section, check **Zip package**.

12. Select **Publish**. This will save your Presenter course as a zip file, which you will later upload to Blackboard.

## Upload Your Presenter Course Zip Package to Blackboard

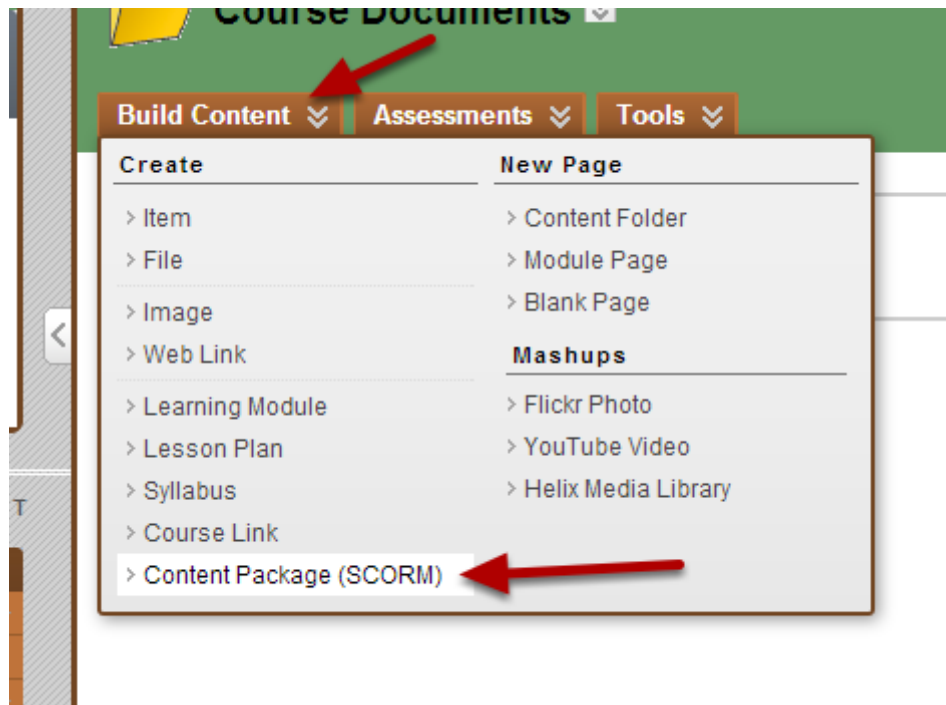

13. After saving your zip package, go to [blackboard.uthsc.edu](https://blackboard.uthsc.edu) and login with your NetID and NetID password.

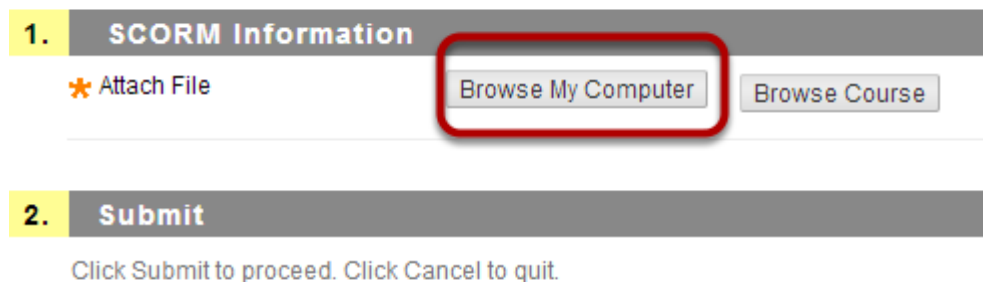

14. Click on the course you want to add the Presenter course to.

15. In that course, select **Course Documents**.

16. Select the arrows next to **Build Content** and click **Content Package (SCORM)**.

17. Click **Browse My Computer** and search for the Presenter zip file you saved in steps 8-12.
